WEDNESDAY, JUNE 20, 1866.

The Blair County Republican Convention endorsed the nomination of Mr. D. G. Morrell, of Cambria, for Congress, from the seventeenth district, to succeed Mr. A. A. Barker. The Republicans of Huntingdon and Mifflin counties show a disposition to bring forward another man.

Mr. Morrell is the Superintendent of the Cambria Iron Works, and has an unusual amount of practical ability, which would be of great value in the national councils. Too few such men get to Congress. Talking ability, except of the highest quality, is common and cheap in this country. There is always an overstock of it at Washington. But intimate, practical acquaintance with the workings and wants of the leading industrial interests is comparatively scarce. Huntingdon has some practical men of eminent capacity. If her Republicans insist on one of these in place of Mr. Morrell, the contest is a fair one. But if they have only a fifth-rate lawyer to offer instead, they will make a mistake for themselves and the people of the whole Commonwealth.

The Town of Sangerfield, in Oneida county, New York, has for some years been the abode of a gang of persons who have lived and grown rich by counterfeiting, horse stealing and other forms of rascality. They became so powerful and bold as to overawe the rest of the inhabitants. Individuals who did not stand well with them had their barns burned, their business injured and the peace destroyed. This went so far that a few days ago the citizens assembled and seized the members of the most obnoxious family, hung them till they extorted confessions from them, and then ordered them to quit that locality. Similar means were employed last year to break up this nest of desperadoes, but without success. Indeed, the rascals made serious retaliations.

The New York *World* says:

"Although the Board of Health reports daily one or more cases of what its executive officers call cholera, there is no indication of panic or alarm in the city. About the usual number of strangers crowd our hotels; there is no marked exodus to the country; while business was never more active for the season. This coolness shows great good sense on the part of the people. A case of cholera here and there in a population of over a million need excite no alarm, but should be enough to put people on their guard, and induce them to provide for possible contingencies. It may well be doubted whether any real case of cholera has yet occurred in the city; but it will be wise to act as though the pestilence had really gained a foothold among us."

The general health of the city was never better; the number of deaths, per week, decidedly diminishing.

Westmoreland.—At the Republican primary meetings in this county, Joseph Buffington had no opponent for President Judge. John Covode had 1844 votes for Congress, and Dr. Fuller 398; and for Assembly, Col. F. T. Gallagher had 1402, and Dr. G. H. Duff 912.

The Democrats at their primary meeting nominated for Congress, Edward J. Keenan, of Westmoreland; for Associate Judges Robert Given and M. P. McClanahan; for Assembly, Samuel Rock.

Gov. Brownlow is expected to call the Tennessee Legislature together in special session to ratify the Constitutional Amendment. That done, loyal representatives from that State will be admitted to seats in Congress.

◆

Gov. Hamilton, of Texas, is at Washington. He strongly advocates negro suffrage, restricted by an educational qualification. He expects the Union ticket to be overwhelmingly defeated.

GENERAL NEWS.

—Wool thieves are operating in Zanesville, Ohio.

—The Union Pacific Railroad will be completed from Omaha to Fort Kearney before October.

—In Austria the circusses have been compelled to close up, because the Government needs all the horses.

—Ruth Irwin, a little girl four years old, was poisoned in Detroit, a day or two since, by a mistake of her mother in administering medicine.

—Rev. J. T. Headley, the author, is engaged on the personal reminiscences and official action of Gen. L. C. Baker, the chief detective of the War Department.

—It is announced that Governor Morton will not call an extra session of the Legislature to ratify the Constitutional amendment, whatever the Governors of the other States may do.

—Maximilian, it is said, has had a thousand nightingales caught in Austria and shipped to Mexico. The poor fellow, amid the distracting cares of his tottering empire, must certainly have something to comfort him.

—A house in Great Falls, N. H., where tenements are extremely scarce, is being suffered to go to decay by the owner because he has been been told by "the spirits" that if he puts it in habitable condition he will surely die.

—A New Haven company has begun the manufacture of a compressed stone for building purposes. It is made of sand, pulverized quartz and silicate of soda, and hardens within twenty-four hours from the consistency of putty to the solidity of stone.

—Mrs. Roger, of Madison, invited a dozen of her neighbors to tea last Sunday, and used arsenic, by mistake, instead of cream of tartar to lighten the cake. Fortunately, too much of the poison had been taken, and no one died, though all were very sick.

—The report reaches us by the recent European mails that Kossuth, who has been known to be in Italy for some years past, is to be furnished with means and men to stir up an outbreak in Hungary, in order to make a diversion of Austrian troops from Italy.

—Rev. Father Bender, a priest of one of the Catholic churches of Cincinnati, refused to permit any insignia of the Fenian Brotherhood to be brought within his church on the occasion of the burial service of one of the men who was killed in the fight at Limestone Ridge.

—The deed of the State of Missouri, transferring the Southeast Pacific Railroad to John C. Fremont, has been executed. A mortgage to the State, conditioned upon the faithful performance of the stipulations of the contract of sale, was also executed on the part of the purchaser, General Fremont.

—It was reported in St. Louis, yesterday, that Peter Smith, a well-known butcher of Carondelet, had started, the evening previous, with a large amount of money to purchase cattle. He was accompanied by two of his men, and, having crossed the ferry and proceeded about a mile, was set upon and killed, as was, also, one of the men, while the other escaped.

—The Newport (R. I.) *Mercury* celebrated its 108th anniversary on the 12th inst. It was first issued on the 12th of June, 1757, by James Franklin. He died a few years after, when it passed into the hands of Ann Franklin, the mother of James and Benjamin Franklin, and subsequently became the property of other parties. F. A. Pratt, Esq., is the present editor and proprietor.

Water not Burned Yet.

Messrs. Editors: Being asked if I had seen the stove on Wood street, which burned oil and water, I called to see if what I had abandoned, after very many attempts as useless, had really been attained. Being thoroughly conversant, practically, with the philosophy of light and heat—having experimented in that department of chemistry for years—a short examination satisfied me that in this case the water was not converted into its gases but entered the flame as steam. Now water, *hot or cold*, unless decomposed into its elements, will not burn. The yellow flame produced is an evidence of the water's being steam only, as any person can prove by throwing a small jet of steam into any light—when the yellow colored blaze seen in this stove will at once appear. If the same flame into which a jet of steam is thrown produces the steam then a thermometer will indicate fewer degrees of heat than it would show without the steam. The reason is that *air will burn and water will not*. The oil alone must, therefore, if properly supplied with air, produce a greater quantity of heat out of the same amount of oil. "Water is an expensive fuel." Parties desiring further information can be gratified by addressing "J. R. of Pittsburgh."

Dr. Keyser furnishes above some of the most important and difficult cures ever made by any medicine, and they are all within the reach and knowledge of the readers of this notice.

Dr. Keyser, being a graduate of medicine, is careful in selecting none but the best quality of roots and herbs in the preparation of his Blood Searcher, besides every bottle is made under his own supervision, so that those who use it may be sure of great care in its preparation and certainty of effect. It has cured hundreds of cases of General Debility, Rheumatism, Dyspepsia, Fever and Ague, Liver Complaint, Jaundice and Chronic Diarrhea. It cures by its powerful effect in enriching and searching out of the blood all noxious and hurtful material. Ask for "Dr. Keyser's Blood Searcher," and take no other. Prepared and sold at 140 Wood street.

Cheering Facts for the Bilious.

Every day demonstrates more clearly that Liver Complaint, in all its distressing forms, can be controlled or cured without difficulty or inconvenience. It is an obstinate disease, but its obstinacy is not proof against the pertinacious, remedial and restorative operation of Hostetter's Stomach Bitters. That genial corrective *compels the organ to do its duty*. It *must* secrete regularly and healthfully under the influence of the Bitters. Their action brings it back from a state of rebellion into perfect harmony with the laws of health. If there is costiveness, it disapears; if there is side-ache or back-ache, it ceases; if the skin and the whites of the eyes are tinged with superfluous bile, they recover their natural hue; if the appetite is gone, it returns; if the digestion is impaired, it is restored; in brief, whatever the symptoms of the complaint may be, and whatever the phase it has assumed, *a cure is certain*. Such are the uniform effects of this preparation where bilious disease has been already developed; but in cases where there is merely a constitutional tendency to liver complaint, it must be prevented throughout life by the regular use, in small quantities, of this palatable antidote. These are proven facts, and should be seriously pondered—or, rather, they should be promptly acted upon—by all persons of bilious habit.

FROM WASHINGTON.

Revenue Commissioners' Report—Amount of Tax Apportioned and Collected in Southern States—Property Held by Government as Purchased at Sales Authorized by Acts Relating to Direct Taxes—Receipts from Re-sales—Internal Revenue Receipts for Present Year—Late Disturbances at Goldsboro, N. C.—Arrest of Prize Fighters in Virginia.

Washington, June 20.—The Secretary of the Treasury to-day transmitted to the House the report of the Commissioners of Internal Revenue, from which it appears that the amount of direct taxes by the act of 1861, apportioned to Virginia is $937,550, of which $579,491 has been collected; apportioned to North Carolina, $576,194, collected, $260,283; apportioned to South Carolina, $363,570, collected, $205,282; apportioned to Georgia, $584,367, collected, $51,423; apportioned to Alabama, $529,313, none collected; apportioned to Mississippi, $413,084, collected, $25,000; apportioned to Louisiana, $385,886, collected, $301,167; apportioned to Tennessee, $669,798, collected, $383,841; apportioned to Arkansas, $261,886, collections not reported; apportioned to Florida, $77,552, collected, $5,712; apportioned to Texas, $355,106, collected, $47,423.

The property held by the Government under the sales authorized by acts relating to direct taxes, was purchased at prices amounting in the several States as follows: Virginia, $32,268; South Carolina, $65,392; Florida, $6,168; Tennessee, $8,360. In Arkansas, lands were struck off for taxes unpaid to bidders who never completed their purchases, to the amount of $18,000.

The amount received from sales in the several States were as follows: Virginia, $113,130; South Carolina, $28,435; Florida, $34,529; Tennessee, $122,717; Arkansas is not reported. The whole amount standing to the credit of Arkansas, commissions from taxes collected and proceeds of sales deposited to the credit of the United States is $165,262.

The Secretary of the Treasury, in his letter enclosing the above facts says: "I avail myself of this occasion to express an opinion based upon my observation of the operation of the law, that an additional enactment authorizing the assumption by the States respectively, of the remainder of the direct tax due from each, would, in view of the present impoverished condition of their people, prevent much hardship in individual cases, and save from practical confiscation the property of many persons, against whom the Government has no grounds of complaint, while no public interest would be injuriously affected should this policy be adopted. The collection of taxes under the present system might and ought to be discontinued until an opportunity for assumption be effected. Whether the amount realized from re-sales of property bid in for the government should, or should not, be allowed to the States respectively in computing taxes still due, is a question well deserving of consideration, which I submit without comment."

The receipts on account of Internal Revenue for the present year, up to the 19th inst., inclusive, amount to $299,918,159, leaving less than one million of dollars to complete three hundred millions. The estimate was made at the Bureau of Internal Revenue. It is now believed that the receipts of the fiscal year ending with the 30th of this month, will amount to three hundred millions from taxes for internal revenue alone.

The Freedmen's Bureau has received a communication giving the particulars of the late disturbance between the whites and colored people of Goldsboro, N. C., from which it appears that it was commenced by a commissioner of the town assaulting a discharged colored soldier, who was then beaten by a crowd of whites. The black man was sent to prison to await the August term of court, colored testimony being refused. The colored people expressed their indignation at the treatment their friend received, and the police were sent to arrest any who were heard to condemn the action of the authorities. Some refused to be arrested, whereupon one man was shot and another mortally wounded. The prejudice against colored men in that section of North Carolina is represented to be bitter and their treatment oppressive.

This afternoon the police arrested Samuel Collier, of Baltimore, and Barney Aaron, the victor and vanquished in the prize fight which took place this morning in Virginia, but they were too badly injured to be removed from their lodgings, and officers were left in charge. Seventeen others were also arrested.

FROM TEXAS AND MEXICO.

General Sheridan at Galveston, en Route for New Orleans—Order of General Kiddoo Concerning the Cotton Crop—Freedmen's Emancipation Celebration at Houston—The Mexican Liberals Capture a Large Merchandize Train from the Imperialists, After Half an Hour's Fight.

Louisville, June 20.—General Sheridan and a portion of his staff arrived yesterday on route from Brazos for New Orleans. He expressed satisfaction with the quiet state of affairs along the Rio Grande. Gen. Gregory, having finished his inspection of the State, left in company with General Sheridan for New Orleans, en route to Washington.

General Kiddoo, in a new order to the Assistant Commissioners, urges the people to greater exertion to save, and if possible, increase the cotton crop.

The Freedmen's celebration of emancipation at Houston passed off quietly.

General Fullerton has not yet arrived.

The Crescent brings the Extra Rio Grande *Courier*, of the 15th, with details of the capture by the Liberal forces, under Trevine, of a large merchandize train from Matamoras to the interior. The train was convoyed by ten Imperialist companies, numbering three hundred and fifty men, under Captain Hoppa, one hundred Contra guerrillas made up of Confederates, and fifteen hundred Mexican Imperialists. It had eight pieces of artillery and six Mexican guns. The fight lasted one hour, when the train was captured.

On the 16th, about three leagues from Camargo, Cavalla, Marango and Escabedo, with their commands, had placed themselves under Trevine, the Liberals numbering twenty-five hundred men, well armed and equipped. The train contained merchandize and ammunition of great value. Gen. Olevas, who was wounded, passed through Keynosa on Saturday night. Several officers of his command arrived at Matamoras, who confirmed the capture of eight hundred prisoners of Olevas command and about four hundred others, with the convoys, were sent to Camargo. The convoy was also taken to Camargo, under double guard, with orders from General Escobedo not to allow anything to be touched.

A rumor says the Mexican Imperial regiment changed sides in the fight. Commerce has suffered an irreparable loss by the capture. Twenty-one of the Austrians escaped. News had been received that the Monterey specie train was reported as being at Craiva for the last six days, and attempting to return to Monterey. Fears were entertained that they also would be captured.

FROM PANAMA.

All Quiet on the Isthmus—Pacific Turn of Affairs on Southern Coast, Since the Departure of the Spanish Fleet.

New York, June 20.—The steamer Arizona brings Panama dates to the 12th of June. Everything was quiet on the Isthmus. The rainy season had thoroughly set in.

Late dates from the interior had brought no important news. President Mosqueri had arrived at the capitol, and was well received.

The news from Central and South America, is unimportant. Everything on the Southern coast had assumed a pacific turn, since the Spanish fleet left, and business is improving. There was no news from Mexico. The Arizona brings nine hundred thousand dollars in treasure.

The Panama *Star and Herald* says the last seen of the Spanish fleet, it was steaming southwest, evidently bound through the Straits of Montevideo, for supplies. Two vessels had left the fleet and had probably been sent to Manilla, where the Spaniards have a large store of munitions of war. So the entire fleet may come back again.

The last steamer from Peru brought to Panama one hundred and eighty Spanish subjects, who had been compelled to leave the country.

The *Star* learns that the United States steamer Mohengo is at Guyaquil, for the purpose of enforcing the claims against Equador.

FROM COLUMBUS, O.

Ohio Union Convention—Nominations—The Resolutions Adopted.

Columbus, (O.,) June 20.—The Union State Convention met to-day and nominated as Secretary of State William Henry Smith, of Hamilton; Judge of the Supreme Court, Josiah Scott, of Butler; Board of Public Works, John M. Barrere.

The following resolutions were adopted:

Resolved, That the Union party of Ohio, having sustained the General Government during four years' successful war against the united efforts of rebels South, and partizans North, now demand peace, established on such stable foundation that rebellion and secession will never again endanger our national existence.

Resolved, That this Convention fully endorses the amendments to the Constitution proposed by Congress to the Legislatures of the States, as a liberal, wise and patriotic adjustment, and the Union party of Ohio pledge for it their united and hearty support.

Resolved, That the nation owes the heroic men of our army and navy a debt of lasting gratitude for their patriotic services in defense of the Constitution and Union; and we urge upon Congress the duty of equalizing bounties; and, while we cherish with tender affection the memories of our fallen braves, we pledge to their widows and orphans the nation's care and protection.

FROM MAINE.

Union Congressional Convention—State Convention.

Bangor, Me., June 20.—The Union Congressional Convention, held here to-day, was fully attended. Hon. John A. Peters was nominated for Congress, receiving a nearly unanimous vote.

A large number of delegates have arrived to attend the Union State Convention to be held here to-morrow.

FROM NEW YORK.

Quiet in Fenians Circles—Roberts' Mission to Washington Reported by Him Successful—Races at Hoboken.

New York, June 20.—Quiet continues in Fenian circles.

Roberts is expected here to-day, and the meeting in Union Square will not take place until after his return. He reports that his mission to Washington has been successful. The O'Mahonyites are, it is said, joining the Roberts branch of the brotherhood, and the organization is to be placed on a firmer basis than ever.

The second race at Hoboken, yesterday, was won by Knighthood against Richmond, and the third race of two mile heats, for which there were six entries, was won by Climax.

CONGRESSIONAL PROCEEDINGS.

Washington City, June 20, 1866.

SENATE.

Senator Grimes, from the Naval Committee, reported the House bill authorizing the acceptance of League Island as a naval station.

The House joint resolution for the distribution of certain surplus copies of American State Papers, was passed.

The Senate, in committee of the whole, agreed to the recommendation of the Finance Committee to fix the tax on cotton at two cents per pound.

Mr. Trumbull from the Committee on Judiciary, reported the following joint resolution:

Resolved, That the Secretary of State be authorized to hire a suitable building or buildings for the temporary accommodation of the Department of State, and that such sum of money, not exceeding fifty thousand dollars, as may be necessary to defray the expense of such hiring, the transfer of the public archives and the fitting up of the building or buildings, be and the same hereby is appropriated out of any money in the Treasury, not otherwise appropriated.

Mr. Harris presented four petitions for the postponement of the ten per cent. tax on Bank circulation, and one remonstrance against such postponement, which were referred to the Committee on Finance.

Mr. Howe from the Committee on the Library, reported the joint resolution to authorize the distribution of surplus copies of the American State papers recently passed by the House. It was read three times and passed.

Mr. Morrill offered a resolution calling upon the President for a detailed statement of the amount expended for public buildings in the several States and District of Columbia from 1789 to the present time, which was adopted.

Mr. Morgan introduced a bill to amend the several acts to indemnify the States for expenses incurred by them in defence of the United States, which was referred to the Committee on Finance. It authorizes the proper accounting officers of the Treasury in executing the acts of the 17th and 27th of July, 1861, to allow and refund to the States all moneys actually and necessarily expended in enrolling substitutes, clothing, arming, paying and transporting troops, having respect to the laws enacted by the several States on these subjects, and that all vouchers made in conformity with such laws shall be deemed sufficient. The decisions shall be final.

Mr. Hendricks asked to take up the House resolution for the adjournment of the present session. The Tax bill was now up and it could easily be told how long it would take to pass it.

Mr. Fessenden—I would like the Senator to fix the time it would take.

Mr. Hendricks said he had seen it stated in an influential newspaper that it would take four days. He did not believe it would take more than a week.

Mr. Fessenden said that he concurred in this opinion. He hoped, however, the Senate would not take up the resolution, as there were several important bills unfinished.

The chair stated that the resolution had not been reported from the Committee on Finance, and was not therefore before the Senate.

Mr. Hendricks said he would modify his motion so as to make it discharge the Finance Committee from the further consideration of the resolution, so as to bring it before the Senate.

Mr. Fessenden hoped this would not be done. It was impossible now to say what would be the day for the adjournment of Congress. If Senators would cease debating unimportant questions, Congress could adjourn by the middle of July.

On the question of discharging the Finance Committee from the further consideration of the resolution, Mr. Hendricks demanded the yeas and nays, with the following result—yeas 9, nays, 25. So the motion was disagreed to.

On motion of Mr. Henderson, the bill to grant lands in aid of the Kansas and Neosho Valley Railroad and its extension to the Red river, was taken up and discussed until one o'clock, when further discussion was cut off by Mr. Fessenden, who called up the special order, the Tax bill. The reading of the bill was commenced.

On motion of Mr. Fessenden, the cotton tax was made to take effect August first instead of July, as in the bill.

The Senate agreed to the recommendation of the Finance Committee to fix the tax on cotton at two cents.

The amendment of the Finance Committee to change the requirement in regard to the publication of the place where appeals relative to erroneous or excessive valuation may be heard, was agreed to. The House bill requires this publication to be made in the county newspaper having the largest circulation in the district. As amended, the provision in regard to the largest circulation is stricken out.

The following amendments, under the head of licenses, to the bill, as it came from the House, were agreed to:

Architects and civil engineers shall pay ten dollars for each license. Every person whose business it is to plan, design or superintend the construction of buildings or ships, or of roads, or bridges, or canals, or railroads, shall be regarded as an architect and civil engineer, under this act; provided that this shall not include a practical carpenter who labors on a building. Plumbers and gas fitters shall pay ten dollars for each license. Every person, firm, or corporation, whose business it is to fit, furnish or sell plumbing materials, gas pipes, or other gas fixtures, shall be regarded a plumber and gas fitter within the meaning of this act.

At 4:45 o'clock the Senate went into Executive session, and soon after adjourned.

HOUSE.

Mr. Donnelly, from the Committee on Public Lands, reported a bill granting to the state of Iowa land in alternate sections for the construction of the Iowa Central Railroad, which was ordered to be printed and recommitted.

Mr. Eggleston, from the Committee on Commerce, reported back the Senate amendments to the bill further to provide for the safety of the lives of passengers on steam vessels, with a recommendation that they be nonconcurred in. The amendments were noncurred in and a committee of conference asked.

Mr. Boutwell introduced the bill of April 18th, 1818, for the punishment of certain crimes against the United States. Read twice and referred to the Judiciary Committee. It provides that the act of 1818 shall not be so construed as to prohibit the citizens of the United States from selling vessels, ships, or steamers built within the United States, or materials or munitions of war, the growth or product of the same, to the inhabitants of other countries, or the Governments not at war with the United States, provided, that the operations of this act shall be suspended whenever the United States shall be engaged in war.

Mr. Glossbrenner, from the Committee on Public Lands, reported back a bill for the relief of the inhabitants of towns and villages in the Territories of New Mexico and Arizonia, which was ordered to be printed and recommitted.

Mr. Washburne, of Illinois, asked and obtained leave to attach his signature to the report of the Reconstruction Committee, which was made in his absence.

Mr. Perham, from the Committee on Invalid Pensions, reported a bill increasing the pensions of widows and orphans, and for other purposes. The first section extends the provisions of the pension laws to provost marshals, deputy provost marshals and enrolling officers who have been killed or wounded in the discharge of their duties, provost marshals to rank for the purpose of pensions as captains, deputy provost marshals as first lieutenants, and enrolling officers as second lieutenants. The second section increases the pensions to widows of deceased soldiers and sailors having children, at the rate of two dollars per month for each child under the age of sixteen.

Mr. Perham made a statement as to the existing Pension laws and bills that are pending under the existing laws. The annual amount paid was $16,000,000. This bill would increase the amount $6,000,000, making it $22,000,000. The bill pending to pension the soldiers of the war of 1812 and their widows, would cost $13,000,000, which would make the total amount of pensions $35,000,000. Under these circumstances the Committee was of the opinion that neither the country nor the pensioners would favor the proposition to double the pensions now allowed.

Mr. Harding, of Kentucky, while favoring the second section, opposed the first, and declared that these Provost Marshals were stay-at-home men, who shirked military duty, and that many of them were infamous and disloyal, and had been engaged in all sorts of unlawful operations during the war to fill their pockets.

Mr. Benjamin took a similar position.

Mr. Stevens expressed the opinion that the lowest grade of pension for total disability, $8 a month, was too low. It had been so when the soldiers' pay was $8, and when the pay was $16 per month he thought the pension should be increased. He should be glad to test the sense of the House on a proviso that the lowest pension allowed for total disability should be $12 per month.

Mr. Harding moved to strike out the first section, which was negatived by a vote of 14 to 75.

The House seconded the previous question, thereby cutting off the amendment which Mr. Stevens proposed to offer. The bill was then read three times and passed.

The Committee on Pensions were discharged from the further consideration of the resolution requiring them to report a bill to double the pensions of those who became pensioners from the late war against the rebellion, and the resolution was laid on the table.

The Speaker presented a communication from the Secretary of the Treasury in reply to a resolution of the House in regard to gold sold since February 1st, 1866, by whom sold, &c.

Mr. Wilson offered a resolution referring the communication to the Committee on Banking, with instructions to inquire fully into all the facts and statements made therein.

Mr. Le Blond inquired as to the reason for this resolution.

Mr. Wilson remarked that there had been for some time past charges in the newspapers in reference to the sale of gold. If what had been alleged was true, it was due to the Secretary that that should be made known through a report from the proper committee of the House.

The resolution was passed.

The printed reports of Generals Sherman, Thomas, Pope, Foster, Pleasanton and Hitchcock, made to the Joint Committee on the Conduct of the War, were taken from the Speaker's table, and, on motion of Mr. Julian, concurred in.

The House then resolved itself into Committee of the Whole, Mr. Pomeroy in the chair, the first bill in the calendar being the senate act to provide for the enlargement of of the Winnebago reservations.

Mr. Banks moved that it be laid aside. Agreed to.

The Senate substitute to the Paris Exhibition bill was taken up, and Mr. Stevens moved that that bill be also laid aside. [Laughter.]

The motion was negatived and the substitute was read, whereupon, on motion of Mr. Banks, the general debate on the bill was closed.

Mr. Washburn, of Illinois, moved to strike out the appropriation of $25,000 to provide additional accommodations in the park. The amendment of Mr. Washburne was rejected.

Mr. Washburne then moved to add to the third section, the following: "Provided, this act shall not take effect until the French troops shall have been withdrawn from Mexico."

Mr. Banks objected, as not being germain. If this country objected to the presence of the French troops in Mexico, it should have the good sense to order them to leave. The industry of the country should not be attacked in this back-handed, under-handed and unjust manner. If the gentleman from Illinois, or any other member, would introduce a bill for the expulsion of the French from Mexico he would give it his support, but in the name of the mechanics of the country he protested against this assault on their interest and their honor by a proposition of this kind.

Mr. Stevens said he was glad to hear the Chairman of the Committee on Foreign Affairs declare his readiness to compel Maximilian and those under whom he acted, to do justice to this country, and he suggested whether it was not time for that Committee to take some action in that direction. If not, he would go for it in the shape proposed by the gentleman from Illinois.

Mr. Banks stated that the Committee on Foreign Affairs would do its duty faithfully, and he promised if this question were left to stand on its own merits, that the gentleman from Pennsylvania would have an opportunity to express his opinions and to give his vote on the subject of the occupation of Mexico by the French.

Mr. Washburne, of Illinois, said he did not know what the gentleman (Mr. Banks) meant by charging him with giving a back-handed blow to the interests of mechanics. He proposed before this country should be represented at the French exhibition, that the little tin crown set up in Mexico should be taken down. He asked the gentleman from Massachusetts, who now talked so boldly, why he had not taken some initiatory steps to vindicate the honor and glory of the country, and he wished that the gentleman would travel with him in having no connection with the French nation so long as it kept up this perpetual threat upon our border. It was a question that concerned not mechanics alone, but every man who had a drop of American blood in his veins. If mechanics were to be told that this stigma was to be endured for their benefit, they would repudiate it. They felt, as all Americans felt, the humiliation to which they were subjected by the present state of things in Mexico.

Mr. Banks said that his reason for stating that the proposition of the member from Illinois was a backhanded blow at the measure, was, that it was evasive of the merits of the question, and, strictly considered, has no right either to enter into debate or into voting. He had this to say, that in all that pertains to the maintenance of the republic of Mexico, he would travel with him, or any man who went for the support of that interest. But he preferred to fight the battle of Mexico against Maximilian, or against the Emperor of the French, or against any one else who should occupy the territory of Mexico, and not fight it under cover of a measure designed to benefit the industrial interests of the country, and which concerned alone the honor and dignity of the Government and welfare and prosperity of the mechanics and workingmen of the country, who had saved it from its enemies.

Mr. Harding, of Ills., declared that he felt inexpressible repugnance in giving his vote for this bill. He was opposed to the nation being humiliated by a tea party representation at the Court of St. Cloud.

Mr. Davis favored the bill, stating that it would be unwise to indicate to the French Emperor, or to the world, that Congress had not sufficient dignity or common sense to legislate without passion.

The amendment was rejected by a vote of 85 yeas against 63 nays.

On motion of Mr. Banks the substitute of the Senate was now concurred in, and Committee on Conference was asked.

The following bills were taken from the Speaker's table and referred:

Granting lands to aid in the construction of a railroad and telegraph line from Columbia river to Salt Lake City. To amend the act of July 2d, 1864, to aid in the construction of a railroad and telegraph line from Missouri river to the Pacific Ocean.

At a quarter past four o'clock the House adjourned.

LATEST FROM NEW YORK.

More Cholera Cases—The Scourge Breaks Out Afresh at Quarantine—A Courtezan Butchered—Fenian Indignation Meeting.

New York, June 20—Midnight.—Three cases of cholera are reported to-day in the city. Anne Crosby, (colored), died at 22 Church street, after twelve hours illness. Patrolman Peck, of the first precinct, was attacked this afternoon, and at a late hour to-night was not expected to recover. The third case reported is at Manhattan, but nothing positive is known respecting it. The scourge seems to have broken out afresh at quarantine.

Two more cases are reported on board the Illinois and two deaths from cholera and one from fever since last report.

Kate Smith, courtesan, was brutally butchered in a bagnio, No. 138 Prince street, this afternoon, by Jerry O'Brien, a returned Fenian, whose mistress she was. O'Brien was actuated by jealousy, and after the murder attempted to cut his own throat. The wound is serious. He was removed to Bellevue Hospital. This is the first murder in New York for three months, something unknown for many years.

The Hoboken races were largely attended to-day. The first race, over eight hurdles, for four hundred dollars premium, was won by Big Zag, beating five competitors. Time—4:05. The second race, for three hundred and fifty dollars premium, 2½ miles dash, was won by Captain Morse, against four entries. Time—4:35½. Third race, sweepstakes, premium three hundred dollars, for three-year olds, mile heats, Dot beat.

Extensive preparations are making here for a grand indignation meeting of the Fenians on Union Square, on next Monday evening, with money said to belong to the Exchequer of the Roberts faction. New circles are forming from the Celts who have abandoned the Stephens and O'Mahony branch of the Brotherhood.

Three thousand two hundred bales of Mobile cotton were sold to-day on account of the Government, at 23@41½c, for different varieties. Good ordinary at 30@31c.

Government Financial Matters.

Washington, June 20.—It appears from a letter of the Secretary of the Treasury, addressed to the House of Representatives, in reply to a resolution of that body, that since the first of January $15,135,000 10-40 bonds were purchased at rates ranging from 93@93¾, or in the aggregate for $14,114,857. These bonds, which have been cancelled, may be regarded as a purchase on account of the sinking fund or as a redemption of so much public debt. The bonds sold since January last were $22,765,000 for $23,461,850. In addition to these, $1,947,100 were exchanged for 7-30 notes and a small amount of certificates of indebtedness. Previous to the first of January, the notes and certificates being received by the Department at the time the bonds were delivered, but for lack of time to make the necessary calculation of interest, and the proper entries upon the books, the account of the agent was not settled, and the amount of bonds delivered and notes received in exchange was not entered upon the public debt until February, and did not appear in the published statement until the 1st of March. It is also proper to remark that $3,747,000 in five-twenty bonds—$3,737,000 of which were issued under the act of March 3d, 1864, and which by the schedule appear to have been sold in January and February—were not entered as a part of the public debt until March, and did not appear upon the public statement until April 1st.

Horrible Murder in York County.

Philadelphia, June 20.—George Squills, aged seventy-two years, and his grand daughter, aged eleven years, were brutally murdered on Saturday evening last, near Rossville, in York county of this State. Mrs. Squills, the grandmother, was also terribly injured, and at last accounts was in a dying condition. An Irishman named Donovan has been arrested on suspicion of committing the deed. The weapon used is supposed to have been a hatchet. Money is believed to have been the object of the murderer.

Railroad Directors Elected.

Cleveland, June 20.—At the annual meeting of the Cleveland and Toledo railroad company, the following gentlemen were elected directors for the ensuing year: A. H. Barney, D. N. Barney and Henry Keep, of New York; John Newell, James Mason and T. P. Hardy, of Cleveland; John Gardiner, of Norwalk, Ohio; S. M'Young and T. H. Hoag, of Toledo. The officers elected were: John Newell, President; L. D. Rucker, Superintendent, and William T. Staunton, Secretary and Treasurer.

General Ortega in Washington—He Protests Against the Recent Decree of Jaurez.

New York, June 20.—General Ortega, now in Washington, has issued a protest against the recent decree of President Jaurez, reappointing himself to office, and denounces the act as arbitrary and illegal, tending to establish a dictatorship, an insult to the people, and a calumny upon General Ortega himself.

Appointments Confirmed.

Washington, June 20.—The Senate, in executive session to-day, confirmed the nomination of Lyman W. Potter, as Collector of Internal Revenue for the Seventeenth District of Ohio, and that of L. J. Ceapkay, of California, as Consul at Barthist. Ex-Gen. Edward S. Bragg was re-elected United States Attorney for Wisconsin.

Vermont Union Convention.

Montpelier, Vt., June 20.—The Republican State Convention to nominate candidates for the State offices, was held here to-day. The following are the nominations for State offices: For Governor, Hon. Paul Dillingham, of Waterbury. Lieutenant Governor, A. B. Gardner, of Bennington. Both are the present incumbents.

From New Orleans.

New Orleans, June 20.—Cotton unchanged: sales 500 bales at 36@37½c. Bank Sterling, 62½. New York Exchange par ¼ discount.

G. M. Bagley & Co.'s extensive grocery and liquor establishment, No. 42 Canal and 61 Common, was burned to-night. The loss will probably reach $60,000; insured for about one-half.

Arrested for Mutiny.—Some seven or eight of the deck hands on the steamer Pine Grove were arrested yesterday and brought before Mayor McCarthy, charged with mutiny on oath of the mate of the boat, who stated that the parties alluded to had broke into a cask of liquor in the hold, and drank until they became beastly intoxicated. They then ascended to the boiler deck, where they assaulted several of the officers, and altogether acted in a disorderly manner. After several hours imprisonment they were discharged, the Captain of the boat declining to prosecute.

Sold.—The Eagle Fire Company have disposed of their old carriage to a firm in Birmingham and have contracted for a new one.

CITY AND SUBURBAN.

Additional Local Matters on Third Page.

Sudden Death of an Estimable Lady.

It is our painful duty to announce the sudden death of Mrs. Mary O'Neill, the beloved and estimable wife of Daniel O'Neill, Esq., editor of our contemporary, the *Dispatch*. She died yesterday morning at five o'clock, from congestion of the brain. Up till eight o'clock the previous night she was in excellent health and spirits, but the terrible disease stole suddenly upon her and within a few hours she yielded life unto the God who gave it. The best medical aid of the city was summoned, but all to no avail, the cold seal of death had been pressed upon her brow from the first moment of her illness. The deceased was the eldest daughter of Mr. James O'Neill, of Castleborough, County Wexford, Ireland, and was brought to this city a bride by D. O'Neill, Esq., in 1852. In 1854, in company with her husband, she paid a last visit to the home of her childhood, where she remained in the company of parents and loved ones till the close of the year. The possessor of a fine education and natural talents, which, combined with a frank, generous disposition, made her an ornament to society and a pride to her household. Enjoying for many years her friendship, we had learned to regard and esteem her as a true and noble Christian lady. Her sudden death has proven a terrible blow upon her bereaved husband and a large circle of friends and acquaintances. Mr. O'Neill has our sincerest sympathy in this, his sad hour of trial and affliction.

Mysterious Disappearance of a Prominent Citizen—Probable Suicide.

There was considerable excitement in this city yesterday consequent on the mysterious disappearance of George B. Jones, Esq., who it was reported committed suicide by drowning himself in the Monongahela River. Yesterday morning, at an early hour, Mr. Jones arose as usual, and after washing and dressing himself carefully, and placing his watch and some other articles of value on the bureau in his chamber, left the house, since which time he has not been seen. A few hours after his departure from the house, his hat and coat was found hanging on a stake near the Bank of the Monongahela river, a few rods below the Lock No. 1, which gave rise to the supposition that the missing man had drowned himself. The river in the vicinity of the Lock was crowded yesterday with skiffs and other craft making search for the body, but up to the present time without success.

Mr. Jones retired from business in January last, since which time he has suffered from depression of spirits, being sometimes partially deranged. It was while suffering from one of these attacks it is supposed that he committed the rash act.

Mr. Jones has been long and favorably known to our citizens as a man of unapproachable integrity and great personal worth, having been for the last twenty-five years identified with the interests of our community as a coal and wholesale grocery merchant. He resided on the corner of Marion and Bluff streets, almost immediately above the spot where he is supposed to have entered the water.

The body of the deceased was recovered last night near the Locks, immediately below his late residence. His arms were folded across his breast as though he had deliberately, and without any struggle, met his death. Coroner Clawson was notified of the finding of the body and will hold an inquest this morning.

Matrimonial Difficulty Revived.

Some time since, under the heading "An Old Man Marries a Young Wife and What Came of It," we gave the particulars of a matrimonial difficulty. Daniel Logan, an old citizen of Huntingdon county, having prosecuted his wife, quite a young woman, for bigamy in marrying a young man named Peter Greot, a resident of Birmingham. The case was before Alderman Strain, and came to an abrupt conclusion by the alleged recreant wife failing to appear on the day fixed for the hearing, forfeiting her recognizance. The alleged second husband, Greot, appeared, and was recognized to answer at the present term of the Criminal Court a charge of fornication. The wife has kept herself in seclusion up to this time, her aged (first) husband's earnest efforts, with the aid of officers, failing to develope her hiding place. Yesterday Logan appeared before Alderman Nicholson and accused (on the commitment) Peter Greot of "marrying Elizabeth Logan, knowing her to be a married woman with a husband in full life." Greot was arrested, and in default of bail committed for a hearing to-day. This new phase of the proceeding is seemingly indicative of a determination on the part of Logan to spare no pains to bring under the law's supervision his truant spouse, of whose whereabouts the belief obtains that Greot has full knowledge. Two young heads may prove too much for one old one in this instance.

Cases Before Alderman Johns.

Hugh Davis appeared before this magistrate and made complaint against one John Phillips, for running a "buggy" with a red hot ball against the person of the complainant, the occurrence having happened at the new rolling mill at Woods' Run. Considerable amount of argument was used on both sides, when finally the prosecutor withdrew the case on condition that the accused should pay to him two weeks' boarding and the costs.

James Lewis, from Pipetown, made complaint before the same Alderman against a person hailing from Pennsylvania Forge, by the name of William Devine. William had in his indiscretion threatened to inflict upon the complainant grievous bodily harm, and hence the prosecution. Devine showing signs of repentance, Lewis ordered the suit to be discontinued, the repentant William to pay the costs.

Mary Harris, of the Seventh ward, appeared before Alderman Johns and portrayed in strong language that Mary Jane Scott had abused and otherwise maltreated her. Considerable amount of patience on the part of the Alderman, and a good deal of talking between the contending parties, resulted in the case being dismissed at the cost of the accused.

The Murderer Stein.

Robert Hague, Chief of Police, left for New York on Monday, with the hope of capturing in that city Stein, the murderer of Roberts, in Temperanceville, a short time since. A letter, purporting to have been written by Stein, had been received by a party, and from its contents it was supposed he was in New York. He is said to have made inquiries concerning his family, and also as to whether the man Roberts was dead. It is believed, however, that the letter was written with a design to deceive the police, from the fact that it was proposed in the letter that he would meet parties at a designated point to receive certain information, and if satisfactory, surrender himself to the authorities.

Assault and Battery.—Mrs. Murray appeared before Alderman Lynch yesterday evening and made oath against Mrs. McCullough for assault and battery. The accused was arrested and brought to the office of the Alderman, when he learned through an authentic source that she was the mother of four small children, who, in the absence of their parent, were left totally unprotected. He thereupon dismissed the suit, ordering the unfortunate woman, who, as well as the prosecutrix, was under the influence of liquor, to return home to her children.

The action of the 'Squire was not according to Purden, but it was according to the dictates of humanity, and should therefore receive the approval of all well-meaning people.

The Hay Loader.—There has been in our county for the past few weeks some gentlemen from our sister State, New York, selling Wm. Elliot's Patent Hay and Manure Loader and Ditching Machine. This machine has become very popular with the farming community, having been thoroughly tested and never found wanting. Those engaged in selling it are well posted as to its merits, and satisfy everyone who will examine it. From our personal acquaintance with Mr. Quinby, and his agents, we cheerfully recommend them to "all whom it may concern" in our adjoining counties.

Ladies' Festival.—An entertainment of an unusual and novel character comes off this evening in Manchester. It is a floral, ice cream and strawberry festival, to be held in the beautiful orchard of Jonathan Gallagher, Esq. The ground will be adorned with flowers and evergreens, and illuminated with numberless Chinese lanterns. The affair is in the hands of the ladies of the Methodist Church of that borough, and everything will be done to render the evening pleasant to all who may attend. A brass band will be in attendance.

The Great Organ—Last Concert.—This evening Mr. George W. Morgan, the eminent organist from Grace Church, New York, will by urgent request, give his second and last concert on the monster organ, just placed in St. Paul's Cathedral, and will be assisted by the celebrated tenor, Mr. Apfelbaum. The price of admission is one dollar, and tickets can be had at all the music stores.

Another Accident. Yesterday afternoon, a son of Mr. J. T. McKnight, who resides near the Washington pike, a short distance from the city, was terribly wounded by the bursting of a gun which he was about firing at some birds. One of his hands was so lacerated, that amputation had to be resorted to. The life of the wounded boy is despaired of.

Mayor's Court.—There were ten cases before His Honor this morning. None, however, were charged with a higher offense than drunkenness and disorderly conduct. Four paid slight fines, one was discharged, and the remaining four went to enjoy a brief season of seclusion in the county jail.

Violating an Ordinance.—Henry Niemeyer, for violating a city ordinance by placing a mortar box on Pennsylvania Avenue, thereby obstructing travel on that thoroughfare, was arrested and brought before Alderman Morrow, who held him to bail for a further hearing to-day.

Correction.—Wm. A. Nave was not injured by an assault upon him at the Red Lion Hotel. Demazon was threatening to shoot several individuals, when Nave interfered and took his pistols from him. Demazon was knocked down by Harrington.

The Commencement Exercises of the Pittsburgh Female College.

The commencement exercises of the widely known Pittsburgh Female College were inaugurated last night, and will be concluded this evening in the Christ M. E. Church. There was a large and intelligent audience in attendance, who seemed to take great interest, and to be highly gratified with the unusually high toned intellectual feast afforded. We regret that our space will not permit us to enter into any extended notice of the essays, and musical performances, but will simply say that all performed their allotted parts to perfection. The programme opened by a beautiful composition of music, adapted for four hands, executed in a masterly manner by Misses Cook and Hadfield. This was followed by an eloquent and impressive prayer by Rev. E. B. Snyder, and a sweet solo by Miss Mary C. Crawford, entitled "Sweetest Melody."

Miss Alice C. Gray next performed upon the piano, in an easy and graceful manner, "Grand Nocturn," and was followed by Miss Mary T. Dihm, in a Latin Salutatory. This was an excellent composition, evincing a thorough knowledge of the beauties and intricacies of the universally cherished dead language. An essay "From Egypt to Canaan" was a very clever production, and was read in a clear, musical voice by Miss Maggie McCoy, of Blairsville. Miss McCoy's composition abounded in poetical truths, and stamped her as one rich in stores of useful knowledge. Miss Lona Scriba next sung a solo from Traviata, and was followed with an essay by Miss Lizzie P. Dalzell, of Enon Valley. This was the choice flower of the literary boquet. It was a perfect gem, and the subject, "Province of Mathematics," though rather dull in itself, was made a prolific one for rapid and sublime figures of speech, and chaste and elegant utterances. The essays read by Miss Carrie Lynch, of Allegheny, and Miss Lizzie Smith, of Sharpsburg, were all fair and spirited productions. The remaining musical performances by the young lady pupils were also remarkably brilliant efforts. Everybody was pleased with the entertainment, but it was only a foretaste of the grand closing exercises of this evening. Judging from the scholars, we unhesitatingly pronounce the Pittsburgh Female College the best educational institution, for the education of girls, in Pennsylvania.

Before Justice Ammon, East Birmingham.

This magistrate had the following cases before him yesterday: Peter Baker, Henry Drexler and John Schillson were charged with assault and battery, on oath of Henry Smith. Case settled on payment of twenty dollars to prosecutor and the costs.

Peter Myler was charged with assault and battery on oath of James Keenan. Both are employed at the American Iron Works, and defendant is accused of having assaulted Keenan with an iron bar. He was held in $300 for his appearance for trial.

John Lawringer was charged with abandoning his wife. The alleged unfaithful promised to live with and support his wife hereafter and was discharged, but the Justice held him in $300 bail for the faithful performance of this promise.

For drunkenness and disorderly conduct, John Rotherback was committed ten days to jail.

Bursted.—About half past six o'clock yesterday evening a portion of the upper basin, situated in the Seventh ward, gave way, and the water it contained rushed furiously down the hill-side over the track of the Pennsylvania railroad, while some of it took a southerly course and treated the residents of Pennsylvania avenue to an increased supply of water.

Annual Address.—The annual address before the literary societies of the Western University will be delivered this evening at Mozart Hall, Seventh street, by Rev. Dr. Howard. The second annual contest will take place to-morrow evening at the same place.

Strange Fatality.—No less than four women died suddenly last night in this and Allegheny City, among whom are Mrs. S. M. Pettengill and Mrs. D. O'Neil. Strange to say each, prior to their demise, was in excellent health and spirits.

Discharged From Prison.—George Lewelyn, accused of larceny from Evan's gift store, and Mary Tracy, committed by Justice Ammon, for assault and battery, were discharged from jail yesterday.

Nuisance.—John Bindley was brought before Alderman Morrow on a charge of nuisance, preferred against him by Street Commissioner Flinn. He was discharged on payment of costs.

Big Load.—Car No. 18, of the Pittsburgh and Manchester Passenger Railway contained no less than forty persons last evening. Thirty were females, twenty-nine of whom wore sundowns.

Affiliation.—For this offense one James Courtney was yesterday committed by Mayor McCarthy for trial, on oath of C. Bushman, of Diamond street.

For the Ladies.—Attention is directed to the card of the new book sotre of E. A. Matson, No. 196 Smithfield street, corner of Seventh.

High School Commencement.—The commencement exercises of the Pittsburgh High School takes place this evening at Masonic Hall.

DIED.

O'NEILL.—On Wednesday morning, June 20th, of congestion of the brain, MARY, wife of Daniel O'Neill, editor of the *Dispatch*, aged thirty-eight years.

Her funeral will take place from the residence of her husband, No. 66 Smithfield street, THIS AFTERNOON, at two o'clock, to proceed to St. Mary's Cemetery.

DUNN.—At 10 o'clock A. M., June 20th, JAMES EDWARD, only child of Wm. F. and Amelia F. Dunn, aged sixteen months.

The funeral will take place TO-MORROW AFTERNOON, at two o'clock, from the residence of the parents, Chestnut street, Eighth ward. The friends and acquaintances are respectfully invited to attend.

THE CHRONIC IMBROGLIO.

Speaking of the action of Governor CURTIN in issuing a circular letter to the Governors of the loyal States, suggesting the convocation of the Legislatures, in special session, to pass upon the new Constitutional Amendment, we said:

"The action of the Governor in this case, highly gratifying in itself, is all the more welcome because in his last annual message he disappointed the just expectations of his best friends by committing himself unequivocally to the President's Policy."

Quoting this, the Harrisburg *Telegraph* adds:

"If our contemporary can tell us now whether Governor Curtin is for "Johnson's policy," for General Geary, or Heister Clymer, he can do more than his warmest friends have been able to discover. We have heard of him being one day for "Johnson and the next hour for Congress." Can't you solve the question, Mr. *Gazette*?"

All the means we have of ascertaining Governor CURTIN's opinions are common to the public. In his last annual message he committed himself in few, but unmistakable words, to the President's Policy. He had just returned from a somewhat protracted absence from the country. It is possible when his message was written, he did not fully comprehend what the Policy of the President implied. It is also possible he comprehended that Policy, but, upon maturer reflection, changed his mind in regard to it. His recent action shows he is in favor of the Constitutional Amendment, and anxious to aid in its adoption.

We are in favor of a wide latitude of opinion. From the hour of Mr. JOHNSON's accession to the Presidency, we have differed with him in opinion. We did not concur in those stern and sweeping utterances by which he seemed to doom to death all who had shared in the rebellion. When he rushed to the other extreme, and maintained in effect that treason worked no forfeitures, we agreed with him just as little. But we did not denounce him for these differences of opinion. It was only when we found him conspiring with the enemies of the republican party and its principles, and for the overthrow of both, that we ventured to condemn him. We mean to measure our deportment towards every representative man in the republican ranks by the same rule.

It has seemed to us—and not to us only—that the *Telegraph*, in its treatment of Gov. CURTIN, was inspired by personal malice. It may be we are mistaken. If so, we have a good deal of excellent company. But whatever may be the motive under which our contemporary acts, its course is mischievous, both to the party in general, and to the special interest it is intended to subserve. Gen. CAMERON is no fool; and he must see that this kind of warfare prejudices him in the minds of many men who are kindly disposed towards him. One such advocate damages him more than a dozen discreet friends can do him good.

The masses of the Republican party throughout the Commonwealth feel they have already had something too much of this standing quarrel about Gen. CAMERON and Gov. CURTIN. There is a growing disposition to have less of it; of which disposition the officious satellites of those distinguished gentlemen will do well to take heed.

Besides, it does not become the *Telegraph* to condemn Governor CURTIN or anybody else for adhering to President JOHNSON or his Policy. So long as the proprietor of that journal was retained as Postmaster at Harrisburg, he was full in the faith that President JOHNSON was true to the Republican party and its principles. No person could be more facile and complying than he was. He was fertile in charitable constructions, and impatient with anybody who did not think the President both sound and true. We did not hold with him then, and thought we saw plainly enough he was governed by sinister considerations; but we did not assail him. The day he was sure the name of his successor had been sent to the Senate he experienced a sudden conversion. Ever since, in his treatment of the President, he has evinced an amount and kind of heat that does not come of devotion to candinal principles, but of wounded ambition and personal rancor. Everybody conversant in the politics of this State sees and understands this, and hence while the zeal of the *Telegraph* against the President and his Policy may amuse, it does edify.

ONE of the Brooklyn newspapers is being sued for libelling the New York Legislature. That is an impossible offense.—*New York Herald.*

These two sentences represent, in an exaggerated form, the popular sense of what integrity is to be found in Legislative bodies. It is worth while to stop and inquire what so sweeping an impeachment implies. Members of Legislatures are not bribed unless some persons who are not members tempt them with offers of profits. Poor and obscure men have little occasion and less means to do this. If done at all, it must be by those who are rich and prosperous, and particularly by corporations of vast wealth and power. Is it true that the mass of the prominent business men do not hesitate at bribery to secure their ends? that the stockholders in banks, in manufacturing and railroad companies either prompt or allow their officers and agents to use vast sums of money for the procurement of legislation by corrupt methods? If such is the fact, then it is idle to bewail the profligacy of members of the Senate and Assembly. The seat of the evil is far back in the influential classes of society. If it is a crime for a poor man who chances to be chosen a member of the Legislature to sell his vote for pay, it is much more a crime for a large number of rich men, associated in a corporation, to tempt his poverty and necessity by an offer of money to perform an unlawful and base action.

Besides, if bribery were as common as censorious critics allege, could society hold together? If the stockholders and managers in all the great financial institutions are so morally rotten as constantly to resort to bribery to carry their points, how do they manage to trust each other?

We do not mean to assert that bribery is a purely suppositious offence. It has an existence. Possibly some colossal reputations for business astuteness have been built up, not by brains, but by check; not by fair and honorable capacities to accomplish practical results in a meritorious way, but by audacity in using moneys confided to their keeping to buy needy and facile men—taking good care to toll the whole grist for their own emolument. Nay, it is conceivable that every intelligent man can put his finger, here and there, upon solitary individuals of this sort. But these few men do not constitute the community. Nor ought the odium of the crimes they inspire and engineer to attach altogether or mainly to the instruments they employ.

"TAXING GOVERNMENT BONDS."

EDITORS PITTSBURGH GAZETTE:—*Gentlemen*—Under the above head, in your paper of Tuesday, you state that all the property in Government securities *is exempt from taxation*. You say, further, that "the interest on the public amounts to one hundred and eighty millions of dollars a year. *Here is so much clear income that bears none of the burdens imposed on most profits derived from other sources.*"

If this statement is permitted to go abroad without correction, it may tend to sour the minds of some persons and lead them to complain unjustly of the Government, a result I feel assured you would regret. Will you permit me, then, to point out your error.

The first Internal Revenue law which was enacted, dated July 1, 1862, provided that an income tax of three per cent. should be levied on all incomes under ten thousand dollars, and that upon all income derived from interest upon notes, bonds, or other securities of the United States, there should be levied a duty of one and one-half of one per cent. per annum.

In the amended law, approved June 30, 1864, after providing that five and ten per cent. should be assessed upon the gains, profits and incomes of each person in the United States, the following proviso was inserted, to wit:

"*Provided*, That income derived from interest upon notes, bonds, and other securities of the United States, and also all premiums upon gold and coupons, *shall be included* in estimating incomes under this section."

Thus it is seen, that at the very outset of the revenue laws, incomes from government bonds and other securities, were taxed one-half other gains; and since the passage of the amended law, which provided for the assessment of the incomes of 1865, the same tax precisely has been paid on incomes derived on United States securities, and incomes derived from business or other sources.

It was the general impression, when Government bonds were first issued, that they were not to be taxed, but the necessities of the Government soon compelled the doing away of any distinction between that and other property, and it now bears, and justly so, its due share of the national burdens.

D. N. W.

REMARKS.—The official position of our correspondent constitutes him an authority on the point to which he calls attention. We presume he has stated all the burdens to which capital invested in Government loans, and the income derived therefrom, are liable; and that it may be accepted as a fact that such property is exempted from all other levies.

A Domestic Tragedy—A Seduced Wife Attempts to Murder her Husband—The Ballet Enters her own Body.

In this city, many years ago, you could have seen over a humble one story tenement the sign of a boot and shoe. Walking into the house you beheld a hale, hearty German at his bench, stitching or pegging away for dear life; while his quick, brisk little wife busied herself with domestic duties, and their little children played with scraps of leather, and prattled sometimes in German and sometimes in English. Late at night and early in the morning the rap of the hammer was heard. The father's life seemed only an alternation of toil and repose—his only recreation silently drinking his beer before eating, or quietly smoking his pipe after meals.

Thus smoothly time glided on, adding a few gray hairs to the heads of the parents, and softly shading the locks of their children. The war broke out. The father was seized with earnest desire to serve the country of his adoption, and, though nearly fifty years of age, he volunteered. Tearing himself from the embrace of his wife and unknitting the arms of his children from about his neck, he joined his regiment and left Nashville to return no more until the close of the war. When peace was restored he hastened to the city, rushed to his home—alas, the destroyer had been there! The wife who clung to him so fondly and whose heart beat as though it would break at his departure, had learned to love another, and even then, in the very house with those dear children was living in open and notorious lewdness with her seducer.

To a lawyer he related the story of his wrongs. A bill of divorce was filed. Before the trial his wife seemed penitent, dismissed her lover, and promised reformation and future fidelity. Confiding in her sincerity, forgiving her because of her penitence, and blessing her in the name of their children, with smiles and tears he drew her to his bosom and told her how rejoiced he was that their happiness should never again be disturbed.

The family was reunited, the wicked destroyer of their peace departed, and the future seemed bright before them. The wife had one boarder in the house to whom she showed many attentions, which eventually led her husband to believed that she had only exchanged lovers. On a particular occasion he noticed her observing him very closely, and, walking a short distance from the house, he saw that she came out in the yard, and looked to see if he was gone. He then went off and concealed himself. When she returned to the house he immediately came back, pulled off his boots, walked softly into the house, and, seeing no one below, ascended the stairs, where he, unperceived, discovered the guilty pair in bed. Without the least noise he descended the stairs, put on his boots, and walked heavily on the floor. His wife ran down, and inquired if he wanted dinner. He replied that he had no desire to eat, but supposed that her fatigue would give her an appetite. She demanded an explanation, and he related what he had seen. She drew a pistol, told him he lied, and if he did not at once retract his statement, she would shoot him. Making no reply, he walked out of the door, and she, leveling her pistol at him, fired. The ball missed its aim, and he left the premises. In about half an hour he returned. She, with a gun cocked, and in her hands, met him at the door, and told him that if he did not then retract what he had said, she would instantly kill him. Without reply, he endeavored to wrest the gun from her. A struggle ensued, the gun was accidental discharged, and she fell to the floor, pierced through the breast with the ball, and immediately expired. An officer hearing the report rushed to the house, found the gun empty, her dead and bleeding, and Ernest Brocker, her husband alone present. He inquired how it happened, and Brocker, in broken English, endeavored to tell him. The officer could only understand that he said he did it. Brocker was committed to jail, where he was taken sick, and for a long time it was thought he would die. He recovered, and now awaits his trial at the next term of the criminal court, when, as no one saw the killing, he will, doubtless, be convicted of murder in the first degree, the penalty of which is death. Thus Ernest Brocker, now over fifty years of age, is destined to suffer death for the crimes of others, and those children whom he so kindly loved are to be deprived of their only surviving and innocent parent. We visited him in jail, and he related to us the facts above written.—*Nashville Union and American.*

IN THE WRONG PEW.—An old gentleman from Kentucky left his hotel in St. Louis to attend the meeting of the Old School Presbyterian General Assembly, at the corner of Fifth and Walnut streets. By mistake he found himself in the Olympic Theatre, a few doors below the church. Taking a seat in one of the elegantly cushioned "pews" he inquired of a gentleman sitting near if "old Bob" was expected to speak. "Oh, yes," was the reply, "he will be out in a minute." In a short time Aymor, the clown, made his appearance, and commenced a political speech. "That's the man you are looking for," said the stranger to the Kentuckian. "Who, is that old Bob? Well, he's a little more ring streaked and striped than I supposed he had got to be, but his speech reminds me of old times in Kentuck." Mad. Briggs next came out on horseback, and the Kentuckian seized his hat and made rapid strides for the Southern Hotel, where he locked himself up for the night.

MR. GLADSTONE AS A STATIST.—The Chancellor of the Exchequer is unfortunate in his statistical estimates. In his last budget he stated that the present rate of increase in the consumption of coal in Great Britain would give a total consumption "of 2,640,000,000 tons in the next hundred years—a much larger amount than was known to exist in the country." According to the English papers it now turns out that there is no doubt that the Welsh coal field, yielding a first-class steam coal, extends twenty miles in superficial area, with an average thickness of thirty feet. This immense bed, if drawn upon at the rate estimated by Mr. Gladstone for the next hundred years, would require four thousand years for its exhaustion.

◆

A good story is told of Wigfall, who, at the collapse of the rebellion, fell into the vicinity of a party of Union soldiers in Texas. Being well disguised, he entered freely into conversation with the soldiers of the guard, and in the course of the conversation asked what they would do with old Wigfall if they were to catch him. "Oh, we would hang him, certain," was the reply. "And you would serve him right," replied Wigfall. "If I should be with you I have no doubt I should be *pulling at the end of the rope myself!*" The *double entendre* was not suspected, and its wit was therefore lost, but is worth producing now.

A London letter writer says: "The capitals of Europe are as gay as if no war was expected. Florence is all flowers, music and beauty. In Vienna, save for the movement of troops and work on fortifications, you would not know that the country was threatened on the north and on the south. London celebrates the return of Patti, and holds magnificent flower shows. The Empress gives balls at the Tuilleries, and La Riche au Bois has just closed with its 400th representation. Only Prussia is sad and sombre. The war seems popular everywhere, except with the power that has brought it on and made it apparently inevitable."

THE SHAMELESS WOMAN TRIUMPHS.—Madame de Castiglione shines again at the French Court, whence the Empress had her banished for nearly three years. This lady—the Cleopatra of modern time—was treated at Her Majesty's last private ball by the mob of courtiers and place-hunters there as the channel through which Imperial patronage may for some time, at least, be expected to flow: What a theme for future Michelets!

COE'S DYSPEPSIA CURE is prepared by the originator of the justly celebrated Coe's Cough Balsam. Mr. Coe has never prepared a medicinal article for public and general use but what has stood the strongest tests, and has always borne the palm of victory over every disease it has been certified to cure. Will you who are suffering from dyspepsia, indigestion, nausea, sick headache, cholera morbus, dysentery, and general debility of the whole system, try but a single bottle? We will never urge you again if we fail in this case. Our own knowledge of its merits the united testimony of all who have ever tried it, the encomiums of hundreds of our own neighbors, your duty to yourself, and the beneficial result, as certain as sunshine, all urgently, persistently urge you to try just one bottle. If what we say is not correct—if our statements concerning its wonderful virtues are not found to be true—if you do not say that the operation of the medicine is instantaneous and perfectly wonderful—we will renounce our profession as caterers to the public health, and retire from the field, admitting that we are incompetent to compound a medicinal preparation which would be entitled to your confidence.

AN ORDINANCE to authorize the construction of a Sewer on the South side of North Commons, and connecting with the Sewer on West Commons.
SECTION 1. *Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby enacted by the authority of the same,* That the Committee on Streets be and they are hereby authorized and directed to advertise and receive proposals for the construction of a Brick Sewer, beginning on the North Common adjacent to the intersection of Third street and Cedar avenue, in the Third ward; thence westwardly 544 feet to Sandusky street, to be of a calibre of 1½ feet; thence westwardly 541 feet to Federal street, of a calibre of five feet; thence westwardly 620 feet to Beaver street, of a calibre of 5½ feet; thence southwardly 1823 feet to the culvert on Western avenue, of a calibre of six feet, and the said committee are hereby authorized and directed to contract therefor with the lowest and best bidder or bidders, at their discretion; the said sewer to be constructed according to plans and specifications drawn by the Recording Regulator, and approved by the Committee on streets.
SEC. 2. That for the purpose of defraying the cost and expenses of constructing the aforesaid sewer an assessment fairly and equally in proportion to the benefit received shall be made on all property which may seem likely to be benefitted thereby and that Messrs. S. Riddle, J. C. Lappe and S. Bulford, freeholders, are hereby appointed a commission to make such assessment and report the same to Councils for their approval.
Ordained and enacted into a law, this 16th day of June, Anno Domini one thousand eight hundred and sixty-six.

POSTPONEMENT.
THE UNITED STATES
PRIZE CONCERT,
TO HAVE BEEN GIVEN AT
Crosby's Opera House, Chicago,
MAY 28th, 1866,
Will be postponed until
Monday, July 9th, '66,
On which occasion
HALF A MILLION DOLLARS IN PRIZES
Will be presented to Ticket Holders, including
$100,000 IN GREENBACKS.
The postponement is an unavoidable necessity, (not so much in consequence of the number of tickets yet unsold) as the positive necessity there is for the proper registration of those already disposed of, which has been delayed in consequence of the negligence and carelessness of a portion of our Agents in making their proper returns.
We advise all parties wanting tickets to send for them without delay, as we have but a limited number yet on hand. We wish most particularly to impress upon the minds of our Agents the importance of their making their returns at once, and of rectifying whatever errors may have crept into their reports heretofore. We will say to those sending for tickets, that if they should all be sold at the time their order is received, the money will be returned.
No applications for new agencies for the sale of tickets will be considered, as we have no more than sufficient tickets to supply those Agents we have already appointed. Tickets are for sale at the principal hotels, book and music stores in the city, and at our office, 133 Dearborn street: price $1.00 each; sent by mail on receipt of price and stamp for return postage.
We invite the particular attention of persons wishing to order tickets by mail to the following

SPECIAL TERMS OR CLUB RATES:
Any party procuring a club of 5 or more names for tickets, and forwarding us money for the same, will be allowed the following commission viz:

Temperanceville in Court.

The borough of Temperanceville was well represented in the Quarter Sessions yesterday, men and women from that locality being in large attendance, some as witnesses, but the greater portion for the purpose of hearing the details of the trial of John Chess, a resident of the borough, for an alleged attempt to outrage Mrs. Ann Lewis, also a resident of the vicinity. Not only were the Temperanceville people out in full force, but there was also a large attendance of members of the bar, court-house attaches, and others, and at the afternoon session the court-room was literally packed with spectators, and the case listened to with eager attention. Messrs. Marshall and Kirkpatrick were the counsel for the defense, and the cross-examination of the prosecutrix by the former was extremely rigid, and occupied considerable time. She testified to enough to fully establish the charge, and from what she stated the offense must have been committed in the presence of her children, six in number, the eldest sixteen. For the defense it was alleged by counsel that the prosecution was brought for the purpose of levying black mail, and witnesses were called who testified that the character of the prosecutrix for truth and veracity was not good, and also contradicted her in some statements she had made. It appeared that subsequent to the alleged commission of the offense, and previous to prosecuting, the prosecutrix had visited several times the house of the defendant, appeared on familiar terms with him, and pressed him to visit her at her residence. The case occupied the entire afternoon, and was concluded at adjournment. The jury will return a verdict this morning.

Quarter Sessions Court.

Judges Sterrett and Brown presiding.

WEDNESDAY, June 20.—The following business was transacted:

In the case of Herman Ritzert vs Richard Boing, surety, the Court ordered each party to pay one-half the costs.

Gerhart Schmoll, convicted of assault and battery, on oath of his wife, was sentenced to pay a fine of $10 and the costs, and required to enter into bonds in the sum of $500, conditional for his good behavior for the period of one year.

Joseph Dierstein, William Einstein, Conrad Eberhardt and John Loetterle, Troy Hill saloon keepers, indicted for selling liquor on Sunday, were tried and found guilty. Sentence deferred.

John Chess was put on trial for assault and battery with intent to outrage the person of Ann Lewis. The defendant resides in Temperanceville, and the prosecutrix testified that he came to her house, in Union township, forced his way into her room where she and her children were in bed, and endeavored to outrage her. In his attempts he bruised her about the body very much, and was compelled to desist from his purpose by a boy, son of the prosecutrix, threatening to strike him with a brick. This occurred on the morning of the 15th of April last. Mrs. Lewis said she had six little boys, and earned her living by washing. Her husband is in England. The information was made about a month after the transaction.

Common Pleas Court.

Hon. Thomas Mellon presiding.

WEDNESDAY, June 20th.—In the case of Wm. H. Sutton vs Jake Hill—action to recover the value of a boat—the jury found for the defendant.

D. B. Kirk & Co. vs John O'Neal & Co. This is an action to recover damages, laid at $2,744.55, sustained by an alleged breach of contract on the part of defendants. The plaintiffs allege that they entered into a contract with defendants to deliver them one thousand barrels of oil, one-half at $8,75, and the other half at $8,80 per barrel. This oil the defendants, it is alleged, refused to receive, and the action is brought to recover the amount. The defendants, in their affidavit of defense, allege that they had sold the amount of oil in question, but when the purchaser demanded it the plaintiffs refused to deliver; that subsequently the plaintiffs sold the oil on defendants' account and retained the proceeds; and that the failure of plaintiffs to deliver the oil at the specified time deprived them of the opportunity to make a sale. Messrs. Rogers and Mellon appear for the plaintiffs, and Messrs. Brown and Moreland for the defendants.

Reasons for a new trial in the case of Wm. Stone vs George Lysle et al were filed.

The petition of James Mateer for a divorce from his wife Margaret Mateer, was presented, and a subpoena awarded.

An Editor Sued for Libel.

Before Alderman Strain, yesterday, Capt. Casper Kauffman appeared and made information against N. P. Sawyer, whose name appears at the head of the *Republic* newspaper as editor, for libel, alleged to consist in the "local" of that paper, in his Quarter Sessions court report, thus speaking in reference to the Troy Hill Sunday liquor cases: "Several of the cases of the lager beer sellers, who used to make an excursion to Troy Hill so pleasant on a Sunday, were next taken up. The Commonwealth put a villainous array of witnesses upon the stand. It seems as if two despicable creatures, named Kauffman and Broerman, were mainly relied upon to establish the accusations made. They belonged, of course, to that most degraded class of informers; but the juries, before whom they testified, were also of that inferior grade of intellectual capacity which can be moulded by the last argument addressed to them." Capt. Kauffman served his country honorably and faithfully during the rebellion, in the 61st Pennsylvania Regiment, and is highly respected in the vicinity where he resides. Mr. Sawyer appeared and entered bail to answer the charge.

Western University—Commencement Exercises.

The first exercises connected with the commencement of the Western University, of this city, will be an address to the Irving and Philomathean Library Societies, by Rev. Dr. Howard, this evening, in Mozart Hall. Friday evening, in the same place, the second annual contest of these societies will take place. The annual examination will commence on Monday, the 25th, and continue until Friday afternoon. Tuesday at eleven o'clock A. M., the Baccalaureate address will be delivered in University Hall, by George Woods, L. L. D., President of the Faculty. Friday evening, the 29th, the exercises of the graduating class and the conferring of degrees will take place in Christ Church.

Boy Killed—Coroner's Inquest.

John Beltzhoover, a young lad of about twelve years, residing with his mother, Mrs. Mary Beltzhoover, on the old Washington pike, three miles from the city, was almost instantly killed, yesterday, by the accidental discharge of a gun. The deceased, with a companion, was out gunning. Having but one gun between them, he endeavored to take the gun from his companion, when it was accidentally discharged, the ball entering the forehead of young Beltzhoover immediately above his left eye, and lodging in his brain. Dr. Donaldson was instantly summoned, but the boy survived only an hour after the occurrence of the accident.

Coroner Clawson held an inquest, when a verdict of accidental death was given.

Temperance League Officers.

The National Temperance League of Allegheny, at a recent meeting, held an election for officers with the following result: President—Rev. William Lynch. Vice Presidents—Rev. J. B. Clark, D. D., C. Yeager, Esq., David Blair, Esq., Rev. Thomas Sproul, D. D., M. R. Trevor, M. D., Rev. V. Lucas and T. Myler, Esq. Secretaries—J. R. Titzell, Esq., W. W. Brown, Esq., Robt. S. Smith, Esq. Corresponding Secretaries—Rev. A. K. Bell, D. D., Rev. S. J. Wilson, D. D. Treasurer—Isaac Charles, Esq. Executive Committee—Thoms Smith, Esq., B. Heckert, Esq., Prof. L. H. Eaton, S. Landes, Esq., W. G. Warner, Esq., M. McGonnigle, Esq., William Askins, Esq.

False Pretence.—R. Fredrick, formerly proprietor of a hotel in the First ward, was arrested and brought before Alderman Lynch, yesterday, charged with false pretence, on oath of J. F. Snyder. It appears that the accused sold a two years' lease of the house to Snyder, for $500, representing that the present occupant of the house—a German, named Antoine—would be forced to quit the premises on the 10th of the present month, the term for which he had rented expiring on that day. On going to take possession of the house on the day mentioned, he learned from Antoine that he had the house rented until the first of next April, and therefore would not give it up. A hearing will be had in the case to-day.

A Rioter Apprehended.—An officer from Clarion county arrived in the city yesterday and took into custody a boy named Daniel Davis, employed as bar-keeper at the Eagle Hotel, against whom, with others, a charge of riot had been preferred. Recently a difficulty arose between the pupils at the Callensburg Academy, in Clarion, culminating in a general row, during which considerable damage was done to the school building. The officer having Davis in custody left with him for Clarion yesterday.

Threatened to Kill.—Bridget Harkins yesterday appeared before Alderman Donaldson and made an information against Eliza Louse for surety of the peace. Bridget stated that the accused threw a spittoon at her from a second story window, and also threatened to kill her. Officer Smith was despatched to arrest Eliza, but she was found in such a helpless state of intoxication that all idea of bringing her before the magistrate was abandoned for the time being.

Bill Ignored.—At about the close of the March term of the Quarter Sessions John Davis, of Birmingham, was committed to jail on oath of John Showalter, to answer a charge of having committed an assault and battery with intent to ravish a little girl ten years of age, daughter of Mary Pelling, of Birmingham. Yesterday the Grand Jury returned the bill *ignoramus*, and Davis was discharged from prison.

Watch Thieves.—One William Robinson was arrested on Tuesday night, by watchman Lawrence Dower, for the larceny of a silver watch from Thomas Frith, while he (Frith) was asleep in the saloon of S. England, No. 691 Penn street. He was held to bail for trial.

A man named Robert Gray was also arrested by the Mayor's police for the larceny of a watch from S. Ray. He was committed for trial.

Nuisance.—James O'Hara was yesterday fined five dollars by the Mayor for maintaining a nuisance in the Ninth ward.

TELEGRAMS.

FROM WASHINGTON.

President Johnson and the Fenians—Speech of Head Centre Stephens—He Repudiates All Connection with Roberts, Sweeney or the Senate—The New Tariff Bill—Consul General to the Danubian Principalities—Serious Illness of General Grant's Father-in-Law—Release of the Notorious Dick Turner—Distribution of the New Five Cent Coin.

NEW YORK, June 20.—The *Herald's* Washington special says: The reports that President Johnson gave the Fenian leaders assurance that they should not be interfered with in their projected Canadian raid are not true. The Government never promised directly or indirectly to even wink at any violation of our laws.

James Stephens has succeeded in thoroughly reconstructing the Fenian organization in Washington. The meeting at Odd Fellows' Hall last evening was attended by several hundred Centres and members of Circles. Mr. Stephens spoke at great length, and was listened to with the deepest attention. He concluded by repudiating all connection, directly or indirectly, with Roberts, Sweeney or the Senate, and denounced all men who would endeavor to use the Irish people on this continent for any other purposes than the liberation of Ireland. The audience afterwards formed in procession and escorted the C. O. I. R. to the Metropolitan Hotel, where he was serenaded shortly after midnight.

Felix O'Byrne, who arrived in Washington yesterday with a resolution on the Fenian question, has been arrested upon a charge of obtaining money under false pretences. He was examined this morning before Mr. Barnacle, when some amusing scenes took place. The case stands adjourned until ten o'clock to-morrow.

Although the Constitutional amendments which recently passed the Senate have been published officially by order of the Secretary of the Senate, it is rumored that Mr. Seward will decline the responsibility of sending it to the Governors of the States except by the President's direction.

The Ways and Means Committee held a protracted session to-day over the Tariff Bill, which will probably be reported about the last of the week. The Committee have not yet reached the iron clause of the bill. It is understood that the wool-growers will carry their point in the Committee, but the result is doubtful when the question comes before the House. The Committee after finishing the Tariff bill, will take up the adjournment resolution, which was referred to it by the House.

There is a strong lobby influence at work to get the Committee on Ways and Means to give six months notice of the proposed new tariff so that it shall not go into effect until six months after the passage of the bill. The Committee, however, it is understood, are nearly unanimous in favor of putting the law into immediate operation. This is also, it is believed, the temper of the House. What is known as the Colwell tariff bill, now before the Committee of Ways and Means, is being slashed to pieces by the Committee.

The name of Dr. Czapkay, of California, has been sent to the Senate for confirmation as Consul General to the Danubian Principalities. Hitherto the United States has not had a representative there, but the impending war in Europe renders it necessary that our Government should have some one there to look after American interests. Dr. Czapkay was a commissioner to the exhibition at Stetin, Prussia, last year.

Mr. Dent, father-in-law to General Grant, lies dangerously ill of the cholera morbus at the General's residence in this city, and, in consequence of his advanced age and enfeebled condition, but little hopes are entertained of his recovery. The General and Mrs. Grant were informed to-day by telegraph of his condition, and are doubtless returning ere this.

The notorious Dick Turner, turnkey of Libby Prison during the war, was yesterday released from confinement by order of Secretary Stanton. Turner was captured shortly after the capture of Richmond, and has been in confinement ever since.

The Committee will report in favor of transferring the Philadelphia navy yard to League Island. There will be a majority and minority report on the Memphis riot case.

Mr. Schenck's army bill will no doubt pass the House, but it will be so amended in the Senate as to send the whole question to the Conference Committee to be finally settled.

As to the time the new Tariff Bill will go into effect, there is no doubt importers will have the usual sixty or ninety days to make their arrangements.

The Conkling-Fry Investigation Committee concluded the taking of testimony to-day, and will commence to review the evidence on Thursday.

The House Military Committee to-day instructed their chairman to report the Senate bill for the establishment of an armory and arsenal at Rock Island, Ill.

The Treasury Department commences to-day a small disbursement of the new five cent coin recently authorized by Congress.

FROM FRENCH WEST INDIES.

Fatal Ravages of the Cholera—Eleven Thousand Negroes Die of the Disease.

NEW YORK, June 20.—Advices from Port au Pitre, Guadaloupe, French West Indies, of May 29th, says: The sugar crop had an abundant yield, but the supply for market was likely to fall short, owing to a want of hands to gather it.

So fatal had been the ravages of the cholera among the colored population that about eleven thousand of this class of the inhabitants had died of the disease on the island.

The city of Port au Pitre was free from the disease when the Susan Jane left. The weather was warm and dry.

Unitarian Conference.

BUFFALO, June 20.—The annual Conference of the Western Unitarian churches begins here to-day. About one hundred and fifty members have already arrived, and by to-morrow it is expected that as many as two hundred and fifty delegates will have assembled. Many prominent Unitarian ministers from the East, including Dr. Bellow, Rev. Mr. Ilesworth and others are now here. The Conference lasts five days.

Fire in St. Louis.

ST. LOUIS, June 20.—The clothing store of Moyer, Friedman & Co., on Fourth street, between Locust and Vine, and the millinery rooms of Federlin & Cohen, second floor of same building, was burned last night. The total loss will be about $25,000. Fully insured in Eastern offices.

Destructive Fire at Chicago.

CHICAGO, June 20.—The buildings and machinery of the Chicago Rolling Mill Company were destroyed by fire last night. Loss two hundred thousand dollars; insured for forty thousand dollars.

The Fenian Prisoners to be Hung.

NEW YORK, June 20.—The *Tribune's* Montreal special says: Two thousand volunteers came in from the front on Monday night. The telegraph asserts that the Fenian prisoners will be hanged.

WIGGINS, BRADFORD & CO., Proprietors.

WE WOULD MOST RESPECTFULLY announce that in consideration of the following cogent (and we trust satisfactory) reasons, we have finally concluded that a postponement would be equally advantageous to the public and ourselves, namely, that we prefer to

Dispose of all the Tickets and give the Public all the Prizes,

than to hold a quantity of tickets (as proprietors usually do) and thereby enhance our chances of drawing the large prizes.

The drawn numbers will be published in the Chicago daily papers as soon as drawn, and when the drawing is over each agent will be furnished with a complete list of the drawn numbers.

In view of the above reasons, which we hope will prove eminently satisfactory,

WE HAVE POSTPONED THE DRAWING

UNTIL THE

9th Day of July, 1866.

FINANCE AND TRADE.

WEDNESDAY, June 20, 1866.

Gold opened somewhat firmer this morning from the lowest quotation of last night, but the undertone of the market nevertheless is downward. The demand for the present has fallen off somewhat, both for export as well as customs; the very fact that exchange is abundant and selling below the specie shipping point, should be taken as sufficient evidence of this fact.

However, as our market depends almost entirely on the European news, in regard to peace or war, it is useless to speculate in regard to the future. The recent sudden advance and decline in gold was simply the result of "bull" and "bear" movements, and our financial condition or that of Europe had nothing to do with it. If the "bears" were squeezed pretty hard, they will require time to recover, and the probability is that we will hear of no disturbance from that quarter for the present.

Governments are again firmer; but since it is supposed that large amounts are held by German bankers, on European account, there is a possibility of a decline the moment that greenbacks have sufficiently improved to enable the bonds to be exchanged for gold or exchange. The following are the New York stock quotations to-day as received by Mr. P. R. Mertz: Gold, 153¾; 1881's, 110⅝; Five Twenties, 102¾@103¼; Ten Forties, 96⅝; Seven Thirties, 102¾@102⅞. Cleveland & Pittsburgh R. R., 87; Pittsburgh, Fort Wayne & Chicago R. R., 97⅝; Erie, 59⅝; C. & N. W., 30¼. Mining stocks dull, except Pithole Creek, which is in demand, in anticipation of an advance.

There was less inquiry apparently for Columbia oil stock to-day than yesterday. It appears that the demand on Tuesday was was brought about by a few parties who alleged that they wanted to buy sufficiently to make even amounts, but, in reality, they wanted to take advantage of the reported increase of oil, which had not before reached the public.

At McIlwain's auction sale of stocks on Tuesday evening, the following named Bank stocks changed hands:

M. & M. Bank	$65 00
Citizens Bank	64 00
do do	63 87½
Exchange Bank	65 00
do do	64 75
Iron City Bank	85 75
Mechanics' Bank	74 25
Bank of Pittsburgh	65 75
Allegheny Bank	58 75
do do	58 25

—The war in Europe need not excite the general alarm which it at first occasioned, for it will inevitably turn out to be far better for neutral commerce and public securities than the first threatenings of, and preparations for, the continental storm some weeks ago. Besides, our heavy gold exports draw to an early end. The greatly-improved look of the foreign exchanges at the close of the week denotes this result. It should also be remembered that the stock of gold in the United States Treasury is not one-half exhausted, as compared with the 13th May, when the exports began, while the supplies on the way from California have been doubled by the rise in price here; and the same remark holds good of the numerous but less important sums coming in from the interior. Under these circumstances it will become the merchant who has customs in prospect to pay, or exchange to buy, the banker who has gold to receive, or gold on hand to sell at a round price, or to lend for a round consideration per diem, and the United States bondholder who has gold interest soon to receive, only to bear in mind the experience of a singular year since the termination of the war and act upon their own quiet conclusions as to the power of speculation to permanently control the market.

—In reference to the financial accounts from England, after it was known that the hopes of peace were at an end on the continent, the following, from the New York *Commercial Advertiser*, we know to be fully borne out by other private letters, as well as by the advance in consols and United States Five-Twenties from Tuesday 5th, to Thursday 7th, June.

A London letter to a New York firm, dated June 6 p. m., says: "Money is working easier. The bills of the London Joint-stock Bank, the London and Westminister Bank, and of Rothschilds and Browns are in demand at 7@8 per cent. *The specie arrivals are an immense thing for American credit. The amount sent from America is everywhere admitted to have saved bankruptcy in England.*" The letters to other banking houses are very much to the same effect. It is a gratifying fact that the acceptances of London banks connected in New York stand in the highest credit on the London money market, being negotiable at 2@3 per cent below the Bank of England rate.

—There are various theories current as to the effect of the war troubles in Europe on the price of our Government securities, several hundred millions of which are held in Europe. One party argues that war frightens capital, which is always cowardly, and by restricting enterprise and a demand for capital, investment securities sympathize with the universal depression. This, in some cases, is no doubt true. Another party argues that if war breaks out in Europe the Germans and the Italians will seek security for their property by transferring it to countries remote from the complications of the conflict, and foremost for both safety and profit among the securities of all nations stand those of the United States. The belligerent nations, Prussia probably not excepted, will suspend specie payments, and specie will flow away from them, just as it did from this country during the war. The demand for our breadstuffs and other articles of export will be largely stimulated in Europe by the withdrawal of men from industrial pursuits for war purposes, and at the same time the tide of emigration here will probably be quickened, and a new impulse imparted to our agricultural and manufacturing industry. Great Britain was never so prosperous, and speculative enterprise with her was never greater, than when the war raged in the United States, and to some extent the threatened war in Europe will affect us similarly, and, having more to gain than to lose by it, there is no good reason why we should regard it with dread. This reasoning, except so far as it is counteracted by the timidity that in financial matters accompanies all wars, no doubt has truth in it, and higher prices for our loans may be ultimately the result.

—The New York *Tribune*, of Tuesday, says:

The rise in gold and the revival of speculation in the precious metals should stimulate Congress to take immediate steps to reduce the volume of the currency, which more than anything else fosters speculation in all departments of trade. The most effectual way in which this can be done is by amending the National Banking law, as proposed by Mr. Hooper, so far as reducing the circulation is concerned, and striking out those parts of the 21st section which allow $15,000,000 of new circulation to be issued. What the country wants is less banks and less currency, and the return of its speculating population, including many National bankers to some productive industry. If $15,000,000 of circulation is wanted in any quarter, it can be most profitably had by forcing $15,000,000 of existing "wild cats" into liquidation, and establishing new banks where—if such a thing is possible—they are deficient in number. Redemption in the Atlantic cities should be enforced without delay and the National Banks be brought to realize "the redeeming feature of the law," or be put in liquidation. A plain legal tender is justly regarded in all parts of the country as better than a National Bank note, and no harm can be done by forcing banks too poor to redeem into liquidation, and giving the public legal tenders in place of their notes. The volume of the currency would increase by the process, and the quality would be improved. The best evidence in favor of winding up a large fraction of the National Banks is found in the fact that these issues have become so excessive that they are loaned, free of interest, for 8 to 14 days to get in return legal tenders. The system will only be reasonably sound when money is worth seven per cent on call in New York, and borrowers satisfied to pay this rate as a rule. This rate would not only give soundness to National Banks, but free the country from swarms of speculators brought into existence by the issue of hundreds of millions of paper money. An active and dear money market, such as would attend the now indispensible liquidation of a large amount of paper credits, would make producers out of idle middlemen, and give the Internal Revenue officers a sounder basis for taxation than is now found in levying upon the profits of gamboling in gold, and commodities stimulated and kept alive by the flood of National notes.

New York Money and Stock Market.

NEW YORK, June 20.—The Gold market was firmer this afternoon, and the price was run up to 153⅛, but afterwards reacted to 152¾@152⅞, and closed at those rates. Cash gold was loaned at ½ per cent. towards the close. The market for Exchange was quiet and steady; prime bankers bills were quoted at 108@108¼, and commercial at 107¾@107⅞. There is very little business doing, however, and these rates are merely nominal. Government securities were firm this afternoon, with some inquiry for the old Five-Twenty bonds on German account. The following were the closing prices:—1881, 110⅛@110⅜; Five-Twenty Coupons, 1864, 102¾@102⅞; Ten-Forty Coupons, 96⅛@96¼; June, Seven-Three-Tens, 76.

At the second regular and last open Stock Boards, the Railway market was weak on Erie, and there was a decline in the stock of one per cent. from the highest point.

The market for Petroleum and Mining shares was firmer this afternoon, with a further rise on Downieville. Express Stocks are steady, and Adams' sold at 123. Mining Stocks—Fenton, 115, Corridon, 130; Perry & Peerless, 375; Gunnell Gold, 90; Virginia City, 43; Congrey, 14,35. Petroleum Stocks—Bennehoff, 11,30; N. Y. and A., 440; Cherry Run, 20; Cherry Run Special, 45; United states, 660.

The following are among the principal sales at the four o'clock call: Northwestern, 30¼; Illinois Central, 121; 2,600 Erie, 58½; 1,200 do, 58⅝; 800 do, 58⅜; Reading Railroad, 108⅝; 200 do, 108¾; 200 Michigan Southern and Northern Illinois, 79¾; 100 do, 79¼; 100 do, 79⅝; 200 Chicago and Rock Island, 95⅝; 1,800 Cleveland and Pittsburgh, 86¼; 500 do, 86⅝; 500 Cleveland and Toledo, 107½; 400 do, 107; 400 do, 107½; 100 Chicago and Northwestern preferred, 59½; 100 do, 59¼.

Gold closed at 152.

Money rather more easy at 4@6 per cent. Sterling dull at 107@108. Gold lower, opening at 153, advancing to 153¾, declining to 152 and and closing at 152⅞. Total exports of specie to-day, $226,894. Government stocks quiet and a shade easier. Freights to Liverpool dull and decidedly lower. Stocks steady; Marietta and Cincinnati, 1st preferred, 42; Northwestern Railroad, 110; Pittsburgh, Fort Wayne and Chicago, 98; Chicago and Rock Island, 96; Cleveland and Toledo, 107; Chicago and Northwestern preferred, 59; Cleveland and Pittsburgh, 86¾; Illinois Central, 121; Hudson, 112½; Erie, 58; preferred, 72; Reading, 109¼; New York Central, 98¼; 5-20 coupons, 1862, 103⅜; 5-20s registered, 1862, 101; 10-40 coupons, 98¾; 7-30s 2d series, 102¾; do 3d series, 102½; Minnesota 8s, '67, 100; Ohio and Mississippi certificates, 27.

The *Post's* commercial article says: Gold is more quiet to-day. There is little scarcity for delivery, and the borrowing rate varies from ¼@⅛ in favor of the lender. The loan market is rather more active, but the supply of idle capital being superabundant, large amounts are easily obtained on call at 4@6 per cent., with approved securities. Commercial paper is quiet, and passes at 5½@6. The stock market offers few features of special interest. Governments are steady, at a slight decline, and railroad shares are flat, except Rock Island, Pittsburgh and Reading, in which there is said to be speculative movements. Before the first session Canton was quoted at 50; Cumberland, at 45; Quicksilver, at 50; New York Central, at 98⅛, and Erie, at 59¼. Later Erie sold at 59½.

The steamer Malta took out $205,000.

The *Commercial's* money article says: The Gold speculation is steadily subsiding, leaving, of course, a few lame ducks on the street. The failure yesterday of a Gold Room operator is reported to cover contracts for $1,500,000 to $2,000,000. This morning the price opened weak and steadily declined, being 152⅝ at half-past one P. M. Speculation is again returning to the Stock Exchange. There is more activity on Reading, Michigan Southern, Cleveland & Pittsburgh, Cleveland & Toledo, and Rock Island, all of which are a fraction higher. Governments comparatively quiet, but firm at the late improvements. The extreme ease in money continues. There is rather more inquiry from Brokers for loans on call, which is met at 5 per cent. Discounts are quiet. There is little paper offering from bankers, dry goods commission houses or produce commission firms. Grocers' paper is very abundant. The rates for prime names range at 5@7 per cent. Foreign Exchange is nominal on the basis of 108@108¼ for bankers' prime sixty days sterling, and 5 francs 15c for long date bills.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, June 20, 1866.

The produce markets continue dull and somewhat unsettled, owing to the violent fluctuations in gold, and while the transactions in the leading commodities are restricted to some extent, prices have undergone no material change.

GRAIN—Wheat is very firm, with but little offering, and considerable inquiry; good springs are held at $2,35@2,40, in elevator. Oats quiet and unchanged; No. 1 Chicago may be quoted at 55, in elevator, and prime Ohio and Penna at 57@58; sale of 444 bush at 58½. Prime Spring Barley is selling at $1, prime Shelled Corn at 80; and Buckwheat at $2,25. Sale of 250 bush Rye at $1.

PROVISIONS—Bacon continues very firm, and prices are still advancing. Shoulders are now held at 16, and Canvassed Sugar Cured Hams at 25. Not much inquiry for Sides. Lard is quoted at 22@23, in tierces, and 25, in kegs. Mess Pork dull but firm at $33.

FLOUR—Is firm with a continued fair local demand, at $10 to $11 for Spring Wheat Family; $11,25@11,75 for half Spring and half Winter; $12,50@13 for all Winter; and $14 to $16 for fancy brands. There was a sale at auction of 1000 bbls St. Louis single extra—said to be musty—at from $6,75 to $7,85. Rye Flour is firm at $6,75.

POTATOES—The market is quiet and unchanged; regular sales from store at $1,15 to $1,25 per bush, according to quality.

HIGHWINES—Quiet but firm; sale of 50 bbls Chicago brand, at $2,29. Stock moderate and receipts light.

HAY—Is selling in a regular way from scales at $25 to $30 per ton, according to quality.

MILL FEED—Shorts are selling at $1. Sales of 12 tons Middlings at $1,65@1,68.

EGGS—Firm with an improved demand; sales at 24@25—mostly at 25.

BUTTER—There is some little inquiry for packed, and it sells pretty readily at 20 to 21 cents.

PIG LEAD—Is quoted firm at 11.

OIL—No. 1 Lard is selling at $1,80@1,85.

FLAXSEED—Is selling at $2,70@2,75.

SALT—Held firmly at $2 40 on track.

CHEESE—Sales at 15 to 18, as to quality.

SORGHUM—Dull; prime quoted at 55@60.

BEANS—Sales prime White at $2.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, June 20, 1866.

CRUDE—The transactions in Crude were much larger to-day than yesterday, amounting in the aggregate to several thousand barrels, and notwithstanding it is evident from the above that there was a perceptable improvement in the demand, prices have undergone no essential change. Sales of 1000 bbls, in bulk at 13¼; 450 at 14½; 500 at 13¾; 1300 (light gravity) at 13; 1300 (light gravity) at 13; 500 at 13½; 600 at 13; 1000 at 18¾, packages included,—on the spot; and 1000 at 19, packages included free on board cars. There is no special basis for the apparent improvement in the demand to-day, as the advices from the east continue unfavorable, and the news by the last steamer reporting a slight improvement does not appear to have made any impression on the market whatever.

REFINED—The market for bonded oil continues quiet and dull, though there is considerable inquiry at low figures. We can report sales of 1200 bbls, on the spot, on private terms; 1000 for September delivery, in Philadelphia, at 44; 500, for same delivery, at 44; 500 for October at 45; and 500 prime white, for immediate delivery in Philadelphia, at 42. As will be seen from the above transactions, prices have not varied much since yesterday, but there is no disguising the fact that the tendency is, and has been for some time past, downward. For free oil there is little or no inquiry, and prices are entirely nominal.

ARRIVALS—The following are the reported arrivals of oil by the Allegheny River since our last report, though it is but proper to remark some of it arrived yesterday:

Fisher & Bro	900	Kier Co	1500
Aladdin Oil Co	2483	J. T. Stockdale	240
W. P. Logan	232	Waver & Adams	20
Miller & Edwards	555	W. Haldeman	238
Jas Wilkins	39

Highwines dull at $2,19 duty paid. Freights steady. Receipts—5,500 barrels flour; 25,000 bushels wheat; 253,000 bushels corn; 49,000 bushels oats. Shipments—5,000 barrels flour; 46,000 bushels wheat; 567,000 bushels corn, 217,000 bushels oats.

Oswego Market.

OSWEGO, June 20.—Flour steady and unchanged; $11 for No. 1 Spring, $13 for Red Winter, $15,50 for Double Extra. Wheat quiet and nominal; No. 1 Milwaukee held at $2,40, which is above the views of buyers. Corn quiet; Illinois Yellow 82c. Oats scarce; Western held at 55c. Rye scarce and nominal.

Philadelphia Market.

PHILADELPHIA, June 20.—Flour steady. Wheat dull; sales of good winter at $3@3,10, and spring at $2,50@2,55. Corn steady. Oats, sales of Delaware at 76. Mess Pork $33@33½. Bacon, Shoulders 15@18. Lard 23c. Whisky, Pennsylvania $2,24@2,26, and Ohio $2,25@2,29.

Toledo Market.

TOLEDO, June 20.—Flour quiet. Wheat firm and without material change. Corn 1c better, at 69c for No. 1 Mixed, 64c for No. 2 do, 68c for No. 1 Yellow, and 82c for No. 2. Oats, White held 1c higher. Lake freights dull and unchanged.

RIVER NEWS.

The river was about stationary at this point last evening, with four feet ten inches in the channel by the pier marks. The advices from Oil City in regard to the Allegheny river were conflicting. One dispatch reported thirty-three inches and falling, while another reported it rising, without giving the stage of water. The weather yesterday was clear and pleasant, and all that could possibly be desired for the transaction of out-door business.

There has not been a single arrival from below since our last report, with the exception of the Pine Grove, from Cincinnati. The Camelia was advertised to leave Cincinnati for this port on Tuesday.

The Gallatin and Elector arrived and departed for Brownsville, and the Fayette and Chieftan are due here from the same point this morning. The Urilda was making preparations to leave Oil City yesterday afternoon, and would doubtless get off during the evening, and the Bayard from Parkersburg, is due here this morning.

The Kate Putnam, for Cincinnati, and the Emma No. 3, for St. Louis, cleared last evening. They both had about all the freight they could safely take on the water, and a few passengers.

Capt. Anderson, of the new steamer R. C. Gray, has commenced loading for the Upper Mississippi, and will go through to St. Paul. Being of very light draft, she will be able to navigate when other boats will be compelled to tie up.

Capt. Shedden's new boat, the Lotus No. 2, is announced for Memphis and New Orleans forthwith, and shippers should bear this fact in mind, as she is the only boat here loading for those points.

The Wauanita, Capt. Shuman, is filling up steadily, and will soon be ready to leave for St. Louis. This boat has just been repainted and thoroughly overhauled, and is in tip-top condition for the summer season.

The New State left Cincinnati last evening, with a moderate trip.

The Fayette, Capt. M. A. Cox, and the Chieftan, Capt. R. R. Abrams, are the regular packets for Brownsville and Geneva this evening, leaving promptly at 5 o'clock.

The Argonaut and Glasgow were loading at St. Louis on Monday, for Pittsburgh, and the Columbia and Importer arrived there on Saturday last.

THE OHIO VALLEY TRANSPORTATION COMPANY.—A company is now about organized, (mention of which we made some days ago) for the purpose of running a line of barges from this port to New Orleans, to consist of twelve model barges and three large and first class tow boats. The Company proposes issuing stock to the amount of $150,000. Those who are so fortunate as to obtain some of this stock will get good interest on their investment, as this is no experiment, as other cities on the river have their barge lines which are in successful operation, and paying heavy dividends to the stockholders.—*Cincinnati Enquirer.*

NATIONAL MILITARY ASYLUM.

The Managers of the National Asylum for discharged volunteer soldiers, authorized by Act of Congress, approved March 21, 1866, ask proposals for sites for Asylums by donation or sale. The premises must be situate in one of the Loyal States, contain at least 200 acres of land and be in a healthy location and easy of access by railroad or otherwise. It is the purpose of the managers to erect, without delay, extensive and permanent buildings for said Asylums, and its establishment will be largely advantageous to any section or railroad in the vicinity of its location.

Plans, specifications and estimates for Asylum buildings, including detached cottages, are also asked for the approval of the Board. Liberal compensation will be given for the successful plan.

Proposals, plans, specifications and estimates—the first named to be in writing, containing plot and description of grounds and terms and conditions of transfer—must be sent to Major General B. F. BUTLER, at Lowell, Mass., on or before the 20th day of June, 1866.
BENJ. F. BUTLER,
President Board of Managers.
LEWIS B. GUNCKEL, Secretary.

Papers entitled to publish the Laws of the United States are respectfully requested to publish this three (3) weeks prior to the 20th of June, 1866, and send their bill, with copy of notice, as above directed. je1:c5

AN ORDINANCE authorizing the Committee on Wharves and Landings to improve the Wharf.

SEC. 1. *Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby enacted by authority of the same,* That the Wharf Committee is hereby authorized and directed to contract for the grading of those parts of the Allegheny River Wharf lying in front of Sandusky, Morgan, Grantham, Goodrich, East Lane, Walnut and Cherry streets, upon the grade established by the high and low water lines, with such competent person or persons as shall bid lowest for its performance, upon such specification and in such reasonable time as shall be fixed by said Committee.

SEC. 2. That said Committee is authorized to expend for said grading such sum in Bonds of the City of Allegheny, not exceeding twenty thousand dollars, as may be necessary, which bonds shall be issued and paid out for said grading, agreeably to the provisions of an act of the General Assembly of the Commonwealth of Pennsylvania, entitled "An Act to authorize the City of Allegheny to issue Bonds to the amount of One Hundred and Fifty Thousand Dollars for the Improvement of the Wharf," passed the 22d day of March, A. D., 1866.

SEC. 3. That the Controller shall proceed immediately to have bonds printed in the usual form of the city bonds heretofore issued, which bonds shall pledge the faith, property and credit of the City of Allegheny, and shall be in the sum of five hundred ($500) dollars each, payable twenty years from the date of their issue, to bear, with warrants attached for their payment of seven per cent. interest, payable semi-annually on the first days of January and July in each year; all the dates to be left blank to the date of issue.

SEC. 4. That said bonds shall be signed in the usual form, and countersigned and issued by the Controller at such times and in such amounts as the Councils shall direct, upon the recommendation of said Wharf Committee.

Ordained and enacted into a law, this the 14th day of June, A. D., one thousand eight hundred and sixty-six.

SAVE THYSELF.

A CURE FOR INTEMPERANCE.

Dr. S. Cutter's Celebrated Stomach Bitters,

The greatest Nervine ever discovered. The addition, within the last ten years, of Dr. Cutter's Nervine Discovery to the English Bitters, makes it a perfect antidote to intemperance. Previous to his discovery of the Nervine, this medicine was before the English public, celebrated as a Tonic and Alterative, in diseases of the Stomach and of the Bowels, and diseases arising from impedities of the blood. As a nervine it is always the choice of the stomach, in all persons addicted to the use of stimulants and narcotics, such as alcohol and malt liquors, opium, morphia, arsenic, tobacco, &c., as it removes the morbid appetite, or craving of the stomach for stimulant; in Headache, Neuralgia, and all nervous diseases, it has no equal as a Nervine.

Ten years use of the improved English Bitters in St. Bartholomew's Hospital, St. Mary's Hospital, Newgate and other prisons, has established its reputation, as a cure for intemperance, and gained for it the approval of the attending surgeons in all the hospitals and prisons throughout Great Britain, and is prescribed now by many physicians in private practice, for persons addicted to the use of stimulants and sedatives. In Paralysis, St. Vitus' Dance, Epiliptic Fits, Nervous Twitchings, and all Nervous diseases, it has no equal. Wholesale and Retail Agent,

INSURE YOUR LIFE IN THE CHARTER OAK LIFE INSURANCE COMPANY OF HARTFORD, CONN.

THE ONLY LIFE INSURANCE COMPANY IN AMERICA that now makes and pays an Annual CASH DIVIDEND on the first and each subsequent payment of premium. Its CASH CAPITAL, an accumulation of $2,000,000, is securely invested in public stocks and mortgages of REAL ESTATE. It is now in its 16th year of business, and has paid to the WIDOWS AND ORPHANS of its members the sum of ONE MILLION DOLLARS. To this date not a single case of litigation has occurred, an evidence that liberality and fair dealing is a specialty with this Company.

The policies of this Company are not forfeited by reason of non-payment of premium after the second year. No payments required after ten years, but policies continue good through life.

CHOLERA DISARMED!!!

The Chief Cause of Pestilence Destroyed!

DR. E. COURTARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 268, 300 and 302 Henry Street, N. Y. Office, 22 Cedar Street.

This Company organized on a permanent basis, with Dr. Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter to every farmer), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gasses and odors by chemical principles—leaving in their places *healthful air*; they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others can be seen at the Company's office.

DELAVAN HOUSE, ALBANY, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors.
T. ROESSEL & CO.

NEW YORK, April 3, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: We pronounce it, without exception, to be the best we have ever known. Its effect upon every matter is complete and instantaneous.
C. A. STETSON, Astor House.

N. B.—These Disinfectants are used by the scavengers, under the direction of the Sanitary Police of the Metropolitan Health Department, N. Y.

FORTY YEARS PRACTICE IN SEXUAL DISEASES

Gives me a knowledge seldom acquired by Physicians. My long residence in this city, and the amount of patients treated annually by me, are sufficient proof of my success.

SPERMATORRHOEA, or Sexual Weakness, and all diseases arising therefrom, are cured in a much shorter time than heretofore by my NEW VEGETABLE REMEDIES. Medicines sent to any part of the Union. All letters must contain a stamp to pay return postage. Correspondence held sacred. Office, 85 SMITHFIELD STREET, near Diamond. Address,
J. W. BRANSTRUP, M. D.,
fe13:ly Box 890, Pittsburgh, Pa.
